Cathie,

Jim asked me to get back to you on this. Gordon and Rick are still have discussions with WTA and are hoping to find a comfort zone. Their comments, if necessary, will come out on the next go-around.

Jim added that he was pleased with where things were going at the CDL meeting and for now we stand mute. (better right that down, it's few and far between when we having nothing to say!)

Hope this note is not too informal for your needs.

LR

At the meeting regarding CDL we agreed that comments, including suggested alternate wording, would be filed by May 30. So far I've only heard from Clark County. Will you, your group, or client be filing comments? If so, by what date do you expect to forward them?
