**SCHEDULE C  
MISCELLANEOUS CHARGES  
(continued)**

**DESCRIPTION OF CHARGES:**

**Late Payment Charge.** A late payment charge will be applied to Customer accounts not paid in full each month by the payment due date. The late payment charge will not apply to residential accounts if the Customer has elected to participate in the Equal Pay Plan, or is making timely payments on a Time Payment Plan.

**Charge For Payment Not Honored.** A charge of fifteen dollars (\$15.00) will be applied each time a customer makes a payment on account that is not honored, for any reason, by a bank or other financial institution.

**Reconnection Charges.** A reconnection charge will be assessed for re-establishment of service to customer following the disconnection of service at the meter. The charge will be twenty-five dollars (\$25.00) where service can be re-established between 8:00 a.m. and 5:00 p.m. on weekdays. The charge will be fifty dollars (\$50.00) where service is requested to be re-established after 5:00 p.m. on weekdays and on Saturdays, Sundays, and holidays.

Before service will be re-established, all amounts then due and payable, including the reconnection charge, must be paid to Company at the Company's offices prior to 5:00 p.m., or, upon prior arrangement between Company and customer, shall be paid to the Company's representative at the time of visit.

**Field Collection Charges.**

**Disconnect Visit.** A charge of fifteen dollars (\$15.00) will be assessed to customer when the Company goes to the premise to disconnect service for non-payment and the visit does not result in termination of service.

**Reconnect Visit.** A charge of fifteen dollars (\$15.00) will be assessed to customer when the Company is requested to go to the premise to reconnect service after a disconnect at the meter, should the visit not result in reconnection of service due to customer actions or inactions.

**Charge For Meter Interference.** When the Company discovers that there has been interference with the meter or its connections at the customer's place of service, such that gas has been used in a manner which prevents it from being registered accurately on the meter, customer will be required to pay the cost of any repairs, replacement, or prevention devices required to be installed by the Company as a result of said interference, plus the amount of any unbilled gas determined to have been lost as a result of customer's interference, at the rates specified in the schedule under which customer took service at the time of the incident.
