Subject: AFFILIATED INTEREST AGREEMENT – ADVICE NO. 422  
Ref: Docket No. UT-051247

To whom it may concern:

Enclosed for the Commission's file is a verified copy of Amendment 57 to a Telecommunications Services Agreement between Verizon Services Organization Inc., on behalf of Verizon companies including Verizon Northwest Inc., and MCI Communications Services, Inc.

The changes being made are described in section 3 on pages 1 and 2 of the amendment.

The footer notwithstanding, the companies are not seeking confidential treatment of this document.

Please call me at 425-261-5006 if you have any questions.

Very truly yours,

Richard E. Potter  
Director  
Public Affairs, Policy & Communications  
Enclosure

STATE OF WASHINGTON  
UTILITIES AND TRANSPORTATION COMMISSION  
2010 APR -5 AM 8:18  
RECEIVED

VERIFICATION OF AFFILIATED INTEREST AGREEMENT

I verify that the enclosed is a true copy of Amendment 57 to a Telecommunications Services Agreement between Verizon Services Organization Inc., on behalf of Verizon companies including Verizon Northwest Inc., and MCI Communications Services, Inc.

Richard E. Potter Date: 4.2.10

Richard E. Potter  
Director  
Verizon Northwest Inc.

AMENDMENT 57  
TO THE  
TELECOMMUNICATIONS SERVICES AGREEMENT  
BETWEEN  
VERIZON SERVICES ORGANIZATION INC.  
AND  
MCI COMMUNICATIONS SERVICES, INC.

This Amendment 57 to the Telecommunications Services Agreement (Contract No. TSA010302-1) (Agreement) by and between MCI Communications Services, Inc. d/b/a Verizon Business Services, a Delaware corporation, with offices at 6929 N. Lakewood Avenue, Tulsa, Oklahoma 74117 ("Provider"), and Verizon Services Organization Inc., a Delaware corporation, with offices at 6665 N. MacArthur Boulevard, Irving, Texas 75039 ("Customer") shall be effective on the date set forth below.

1. EFFECTIVE DATE

This Amendment 57 shall be effective upon full execution by both parties. Notwithstanding anything to the contrary contained in this Agreement, the term of this Agreement and the other terms and conditions hereof, are subject to applicable law and regulatory approval. Accordingly, although this Amendment is executed by both Parties, to the extent that any state statute, order, rule or regulation or any regulatory agency having competent jurisdiction over one or both parties to this Agreement, shall require that this Amendment or any subsequent amendment be filed with or approved by such regulatory agency before the amendment may be effective, the Amendment shall not be effective in such state until the first business day after such approval or filing shall have occurred.

2. REGULATORY APPROVAL

This Agreement is subject at all times to any statute, order, rule, or regulation or any state or regulatory agency having competent jurisdiction over one or both of the parties hereto or the services provide hereby. Provider and Customer agree to cooperate with each other and with any applicable regulatory agency so that any and all necessary approvals may be obtained. During the term of this Agreement, the parties agree to continue to cooperate with each other in any review of this Agreement including subsequent amendments by a regulatory agency so that the benefits of this Agreement or such amendment may be achieved. If any such agency accepts this Agreement or any amendment in part and rejects it in part, or makes a material modification to the Agreement or amendment as a condition of its approval, either party may terminate the Agreement or Amendment in its entirety without penalty or liability.

3. AGREEMENT MODIFICATION

3.1 REPLACE Pages C-41BV, C-41BW, C-41BX and C-41BY of Exhibit C (as originally added via Amendment 31) with Pages C-41BV, C-41BW, C-41BX, C-41BXA, C-41BXB, C-41BXC, C-41BXD and C-41BY as set forth in Attachment 1. For clarification purposes, the parties acknowledge that as of the Effective Date, CARRIER IP TERMINATION Service (SIP-ABB) as originally described in Section 49 of Exhibit C

will be terminated in its entirety and superseded by SIP GATEWAY OUTBOUND Service as described in Attachment 1. Further, immediately following the Effective Date Customer will be required to establish new accounts for SIP GATEWAY OUTBOUND Service ("SIP Outbound Accounts") and the parties will cooperate with each other in moving Customer's CARRIER IP TERMINATION Service to the new SIP Outbound Accounts. The rates and charges described herein will apply to Customer's SIP GATEWAY OUTBOUND Service following the transition.

3.2 REPLACE Attachment C-25, CARRIER IP TERMINATION (SIP-ABB) Pricing, in its entirety with Attachment C-25, SIP GATEWAY OUTBOUND Pricing, as set forth in Attachment 2.

4. OTHER TERMS AND CONDITIONS

Except as specifically amended herein, the terms and conditions of the Agreement, including any Amendments thereto, shall remain in full force and effect during the term of the Agreement.

IN WITNESS WHEREOF the parties have entered into this Amendment 57 as of the date set forth above.

**(REPLACE SECTION 49 TO EXHIBIT C AS SET FORTH BELOW)**

MCI/VERIZON (07/26/01)  
TSA010302-1  
Amendment 57 (3/1/10)

**CONFIDENTIAL**

48.8.2 Provider will provide CDRs via Network Data Mover (NDM) which requires Customer to establish a Frame Relay connection and purchase Direct Connect software from a third party. CDRs provided via NDM are subject to a non-recurring installation charge per account of \$1,000 (plus all necessary leased-line and equipment costs which will be determined on an individual case basis depending on Customer's specific configuration).

#### 49. SIP GATEWAY OUTBOUND Service (ABB).

##### 49.1 SCOPE

49.1.1 Provider will provide "**SIP GATEWAY OUTBOUND Service**" or "**SIP OUTBOUND Service**" which is Provider's termination through the public switched telephone network (PSTN) of IP LD Calls (as defined in Section 49.2.1 below), subject to the terms, conditions, charges and discounts set forth herein.

49.1.2 All of the terms and conditions set forth in the Agreement (including without limitation, provisions addressing Service Requests, payment of charges, suspension of service, Technical Standards, limitation of liability, indemnity and force majeure) will apply to SIP OUTBOUND Service and where applicable, references to "Service" or "Switched Services" will be deemed to include SIP OUTBOUND Service. Solely with respect to SIP OUTBOUND Service, in the event of any conflict between the terms and conditions set forth in the Agreement and this Section 49, the terms and conditions set forth in this Section 49 will control.

##### 49.2 TERMS AND CONDITIONS

49.2.1 (i) Customer represents to Provider that all calls Provider receives from Customer that are to be subject to the terms and conditions (including rates) set forth in this Section 49 and the Agreement originated as an internet-enabled long distance call (i.e., long distance a call transmitted from an end user premise in internet protocol format and not a long distance call originated via the PSTN) (hereinafter referred to as an "IP LD Call").

(ii) In the event any ruling, decision or determination by the FCC or any court of competent jurisdiction concerning internet-enabled calls is inconsistent with the description of an IP LD Call as set forth herein, Provider reserves the right to modify the description to be consistent with such ruling, decision or determination. In such case, Customer may terminate SIP OUTBOUND Service without any termination liability (other than charges for SIP OUTBOUND Service provided through the effective date of termination).

(iii) In the event a third party disputes that the calls are IP LD Calls as then described, Customer agrees to cooperate with Provider and provide reasonable evidence (including but not limited to providing (or causing End Users to provide) Provider with call detail records) to substantiate that the calls are IP LD Calls as then described.

(iv) In the event it is determined that the calls sent to Provider for termination are not IP LD Calls as then described and as represented by Customer, in addition to the SIP OUTBOUND Service charges described in Section 49.3 below,

Customer agrees to pay Provider up to a \$0.10 per minute surcharge for all non-IP LD Calls. Additionally, Customer agrees to indemnify and hold Provider, its affiliated companies and any third-party provider or operator of facilities employed in the termination of IP LD Calls harmless from and against any and all claims, demands, suits, actions, losses, damages, assessments or payments asserted against such parties to the extent any call provisioned under this Section 49 is not an IP LD Call as then described and as represented by Customer.

49.2.2 In order to utilize SIP OUTBOUND Service, Customer must connect to Verizon's SIP network in a manner and at locations determined by Verizon. Subject to Verizon's approval, the connection may be made,

- (i) via the Public Internet;
- (ii) via SIP INTERNET ACCESS Service with Provider provided Customer has executed (or executes simultaneously with the execution of a Service Request for SIP OUTBOUND Service), a Service Request for Provider's SIP INTERNET ACCESS Service; or
- (iii) via DEDICATED INTERNET Service with Provider (excluding "Wholesale Burstable Internet Service" and "Wholesale Tiered Internet Service") provided Customer has executed (or executes simultaneously with the execution of a Service Request for SIP OUTBOUND Service) a Service Request for Provider's DEDICATED INTERNET Service or a Service Order Form (SOF) approved by Provider.
  - (a) Customer may interconnect to Provider's SIP OUTBOUND Service platform via transmission facilities that join Customer's LATA-based IP/MPLS networks to Provider's Public IP network. This may include the facilities that connect Customer's LATA Core Routers (LCRs) to Provider's AS 19262 Backbone routers; and others as mutually agreed.
- (iv) Other such method(s) as the Parties mutually agree.

49.2.3 The parties agree to reasonably cooperate with each other on testing (including testing with Customer's vendors) to ensure interoperability between Provider and Customer's networks and systems.

49.2.4 Customer will submit Service Orders for telephone number(s) (TNs) for the initial implementation of SIP OUTBOUND Service via Portfolio™. The TNs submitted by Customer are used for determining the originating jurisdiction and taxation of calls (i.e., regardless of the originating ANI reflected in the applicable call detail record). TNs ordered by Customer hereunder may not be ported to/from other third parties. SIP OUTBOUND Service does not include Directory Assistance or Operator Services.

49.2.5 SIP OUTBOUND Service supports the following:

- (i) 7, 10 and 11 digit dialing.

- (ii) With respect to international dialing, 011 + Country Code + National Significant Number (NSN).
- (iii) G.711 ulaw (AVT payload 0) ITU-T standards; Provider recommends G.711 ulaw; G.711 Appendix I and Appendix II are not supported; Verizon uses 20 millisecond packetization; in order for Service Level Metrics to apply as described in the Attachment for SIP INTERNET ACCESS Service), Customer must use 20 millisecond packetization; Verizon can receive G.729 or G.729A (AVT payload 18) and will send G.729A with 20 millisecond packetization.

49.2.6 Start of Service for SIP OUTBOUND Service will be concurrent with the activation of the method utilized to interconnect to Provider's SIP Gateway Service Platform as described in Subsection 49.2.2 above.

49.2.7 SIP OUTBOUND Service may be terminated to any direct dialable location worldwide.

49.2.8 Calls (excluding calls to International Locations, Canada and Mexico) will be billed in six (6) second increments and subject to a six (6) second minimum charge. Calls to International Locations and Canada will be billed in six (6) second increments and subject to a thirty (30) second minimum charge. Calls to/from Mexico will be billed in sixty (60) second increments and subject to a sixty (60) second minimum charge. All calls, with the exception of incomplete billable calls, will be billed utilizing Hardware Answer Supervision where available; incomplete billable calls are calls in which the disconnect time minus the originating time is greater than 75 seconds and less than 10,800 seconds.

49.2.8 During each calendar month or pro rata portion thereof, Customer agrees to maintain at least sixty percent (60%) of the domestic portion of Customer's Total IP Minutes (as defined herein) for termination as an Interstate call (i.e., a call for which the originating ANI and terminating ANI are located in different states). Verizon shall have the right to apply and Customer agrees to pay up to a \$0.10 per minute surcharge (as determined by Verizon) to the number of minutes by which non-Interstate minutes exceed forty percent (40%) of the domestic portion of Customer's Total IP Minutes. For purposes of this Subsection 49.2.8, "**Customer's Total IP Minutes**" will be calculated at the account level and will not be aggregated with or include any non-SIP OUTBOUND Service (ABB) minutes.

### 49.3 PROVIDER'S CHARGES FOR SIP OUTBOUND SERVICE

49.3.1 The rates and charges shown on the Schedules are per minute and will be determined based on the terminating location. The applicable OCN will be determined by the NPA-NXX of the terminating ANI or the NPA-NXX of the Location Routing Number.

The applicable Class designations are set forth in Provider's ACCESS BASED BILLING (ABB) OCN Table (the "ABB OCN Table"), which is available in the public area of Provider's Customer Access System/Bulletin Board (BBS) and/or via Portfolio. The ABB OCN Table may be modified from time to time thereby affecting Customer's applicable rates for SIP OUTBOUND Service. Any modifications to the ABB OCN Table will be effective as of the first day of the month following its posting at the BBS and/or via Portfolio.

SERVICE	RATE
INTERSTATE (within the 48 contiguous United States)	SEE Attachment C-25
INTRASTATE (within the 48 contiguous United States)*	SEE Attachment C-25
INTERSTATE EXTENDED DOMESTIC Locations (from the 48 contiguous United States to Extended Locations)	SEE Attachment C-25
CANADA (from the 48 contiguous United States to Canada)	SEE Attachment C-25
INTERNATIONAL (from the 48 contiguous United States to International Locations)	SEE Attachment C-25

\* NOTE: The use of the term "Intrastate" is for the convenience of the parties and reflects the geographical nature of certain calls. The parties make no representation with respect to the jurisdictional use of such term as may be defined by applicable law or regulation.

49.3.2 With respect to SIP OUTBOUND Service, Provider's dialing code assignments ("**International Dialing Codes**") for all International locations and Mexico (including mobile dialing code breakouts) as defined by Provider are subject to change each month and are described at the following website: <https://portfolio.mci.com>, which website must be accessed by Customer with a Provider-assigned password. Any changes to the International Dialing Codes will be posted by the 23rd day of each month and will be effective as of the first (1<sup>st</sup>) day of the following month. The posting date described herein may be modified by Verizon upon at least thirty (30) days prior written notice. Customer acknowledges that it is Customer's responsibility to consult the website monthly for any future dialing code modifications.

49.3.3 Notwithstanding anything to the contrary contained in the Agreement, Provider reserves the right upon notice (hereinafter referred to as the "**SIP Outbound Rate Modification Notice**") to modify the SIP OUTBOUND Service charges described herein (which charge modifications shall not exceed then-current generally available Provider charges for comparable services), as follows:

49.3.3.1 with respect to domestic (i.e., within the contiguous 48 United States) SIP OUTBOUND Service charges, upon not less than thirty (30) days prior notice to Customer; and,

49.3.3.2 with respect to Interstate Extended Domestic locations, International locations, Canada and Mexico SIP OUTBOUND Service charges, upon not less than seven (7) days prior notice to Customer.

49.3.3.3 Any SIP Outbound Rate Modification Notices described in this Subsection 49.3.3 will state the effective date for the charge

modification. In the event Provider notifies Customer of an increase in the charges as described herein, Customer may terminate this Section 49 without incurring a termination or cancellation charge (other than payment for SIP OUTBOUND Service provided by Provider up through the effective date of cancellation) only with respect to the SIP OUTBOUND Service(s) affected by the increase in charges. In order to cancel such SIP OUTBOUND Service(s), Customer must notify Provider, in writing, prior to the effective date of the charge modification.

49.3.4 Customer will be responsible for "**Gateway Ancillary Services**" which are one-time Service Order administrative and non-administrative requests or changes ordered by Customer, including but not limited to, cancellation prior to the end of the applicable Service Commitment Period. Provider's recurring charges for Gateway Ancillary Services shall be established upon Verizon's acceptance of a Service Order. A list of non-recurring Gateway Ancillary Service Charges is set forth on Attachment C-25, which is attached hereto and incorporated herein by reference. Gateway Ancillary Charges are in addition to any Ancillary Charges described in the Agreement and, to the extent the same charge is reflected in the Agreement, will supersede such charge.

#### 49.4 CUSTOMER'S RESPONSIBILITIES

Customer agrees and acknowledges that it is directly responsible for complying with this Section even if some of the responsibilities or obligations are in the control of or are to be performed by its End Users. Customer represents and warrants to Verizon that, to the extent necessary, Customer has the right to enforce such provisions against its End Users.

49.4.1 Customer (or Customer's End User) shall, at its own expense, provide, operate and control the equipment, software and facilities and the network configurations (hereinafter referred to as "**Other Facilities**") necessary for the delivery of SIP OUTBOUND Service from the applicable Point of Demarcation to Customer's End User.

49.4.2 Immediately upon Provider becoming aware of any problem which Provider believes, in good faith, is due to or conveyed through the Other Facilities and either is causing, or is reasonably likely to cause, interference with or obstruction to the Provider Network, Provider shall notify Customer, both telephonically and in writing of such problem in reasonable detail. If requested by Customer, Provider shall continue to use commercially reasonable efforts to assist Customer with resolving the technical difficulties with the Other Facilities that are causing the interference with, or that are obstructing the operation of, Provider's Network. If Provider notifies Customer that the Other Facilities are causing or are reasonably likely to cause interference with or obstruction to Provider's Network, the parties shall cooperate in good faith and Customer shall take reasonable steps to remove the interference or obstruction. If the condition that is adversely affecting Provider's Network cannot be adequately remedied within a reasonable period of time, taking into consideration the severity of the condition, Provider may, suspend the provision of SIP OUTBOUND Service after providing twenty-four (24)

hours notice to Customer of its intent to do so, but only to the extent necessary (i.e., affecting as few End Users as possible for the minimum time period necessary) to address the specific interference or obstruction. Provider shall restore the suspended SIP OUTBOUND Service immediately upon the elimination or reasonable mitigation of the interference or obstruction. Customer shall continue to pay regular charges for any SIP OUTBOUND Services suspended by Provider.

49.4.3 Customer shall be responsible for interacting with regulatory authorities and obtaining any required regulatory approval regarding the SIP OUTBOUND Services and providing CALEA compliance capabilities in the Other Facilities with respect to the Services provided by Customer; provided, however, Provider may participate in any interaction with a regulatory authority if the Provider Network and/or SIP OUTBOUND Services are a direct or indirect subject of that interaction. Provider agrees to reasonably cooperate with Customer relative to CALEA requirements.

49.4.4 Customer shall, at its own expense, take all reasonable physical and information system security measures necessary to protect all equipment, software, data and systems located on Customer's (or Customer's End User's) premises or otherwise in Customer's (or Customer's End User's) control and used in connection with the SIP OUTBOUND Service, whether owned by Customer, Customer's End User, Provider, or Provider's subcontractors. Customer acknowledges and agrees that Provider is not liable, either in contract or in tort, for any loss resulting from any unauthorized access to or alteration of, theft, destruction, corruption, or use of, the Other Facilities used in connection with the SIP OUTBOUND Service, unless proximately caused by Provider's gross negligence or willful misconduct. Customer is responsible for all security measures with respect to the Other Facilities, including firewall security policies, even if Customer uses a third party (or Provider) to configure and implement such measures. Customer will be liable for damage to Provider Equipment used in conjunction with SIP OUTBOUND Service. Customer shall provide necessary VPN equipment capable of terminating an IP SEC AH tunnel in accordance with IETF RFC 2402, for the transport of SIP-based signaling to and from the Verizon Network to the Customer's SIP Proxy, Softswitch, SBC, Application Service, or any other type of SIP User Agent Service (SIP UAS) used in support of Customer's VoIP network infrastructure.

49.4.5 Notwithstanding anything to the contrary contained in the Agreement, every calendar quarter (or portion thereof), Customer is responsible for providing to Provider a forecast (in a format supplied by Provider and covering the following the next two (2) quarters) of minute volumes. Provided Customer has given Provider an adequate usage forecast, Provider shall notify Customer within thirty (30) days of receipt of such forecast whether the necessary capacity is available to support Customer's forecast. Following Customer's initial forecast, Provider will use commercially reasonable efforts to maintain adequate capacity to meet Customer's forecast within ninety (90) calendar days.

49.4.6 Provider's relationship under this Section 49 is solely with Customer and not with Customer's End Users. Customer is responsible for all pricing, billing and collections related to the services it provides to its End Users as well as all service capabilities required by law. In connection therewith, Customer is responsible for providing to Provider all necessary End User information in connection with Provider's provision of SIP OUTBOUND Service hereunder. Customer shall provide technical support to its End Users, and shall conduct reasonable problem resolution and troubleshooting activities with End Users to determine whether a problem lies in the Other Facilities before escalating problems to Provider. Provider will provide Customer's designated point of contact with a toll-free number for 24 x 7 x 365 support – including reasonable back-end technical support and problem escalation support for installation, access, and network problems – provided from its Network Operating Center (“NOC”) to Customer's NOC for all SIP OUTBOUND Services. This number is to be used only by Customer and may not be released to Customer's End Users. Customer will provide Provider with access to its personnel on a 24 x 7 x 365 basis as necessary for problem resolution. Provider reserves the right to charge “excessive” Customer support fees in its sole discretion and in an amount determined by Provider if Provider refers back to Customer for resolution (because of a non-network-related issue that Customer is supposed to handle) greater than 33% of technical support calls within a billing cycle. Excessive Customer Support fees will be charged in arrears for the month in which the excess occurred; provided that, Provider will not charge the excessive Customer support fees for the first six (6) months or for support related to Verizon's equipment.

49.4.7 Customer acknowledges that the implementation, of upgrades, updates, and enhancements (collectively “**Configuration Changes**”) to Customer's System may affect the operation of SIP OUTBOUND Service. Customer will inform Provider prior to implementing a Configuration Change to afford Provider a reasonable opportunity to examine the impact of the Configuration Change on SIP OUTBOUND Service. If Provider reasonably believes that the impact will be material, Provider will inform Customer, and Provider and Customer will work together in good faith to determine how best to proceed regarding such Configuration Change, including full implementation, partial implementation, deferral, or no implementation.

49.4.8 Customer must provide the IP addresses/DNS name information on each service from where the outbound traffic will be routed. Provider will confirm that the IP address/DNS name information belongs to Customer but will not be held responsible for erroneous or incorrect entries from Customer which may lead to service failure or interruption. Customer can submit changes to the IP address/DNS name information in which case Customer will be subject to change order charges as described in Attachment C-25.

## 49.5 CALL DETAIL RECORDS / INVOICES

49.5.1 Notwithstanding anything to the contrary contained in the Agreement, Customer may select one of the following delivery options for Call Detail Records (CDRs) for SIP OUTBOUND Service:

49.5.1.1 Provider will provide multiple CDRs based on Customer's defined file size for SIP OUTBOUND Service which may be accessed by Customer via Portfolio™. CDRs provided hereunder are subject to (i) a non-recurring set-up charge of \$0.00, and (ii) a monthly recurring charge per account of \$0.00.

49.5.1.2 Provider will provide CDRs via Network Data Mover (NDM) which requires Customer to establish a Frame Relay connection or an IP SEC AH Tunnel connection in accordance with IETF RFC 2402 used solely for the transport of CDRs (and is independent from IP SEC AH tunnels described in Subsection 49.4.4) and purchase Direct Connect software from a third party. CDRs provided via NDM are subject to a non-recurring installation charge per account of \$1,000 (plus all necessary leased-line and equipment costs which will be determined on an individual case basis depending on Customer's specific configuration).

49.5.2 Customer's charges for SIP OUTBOUND Service will be reflected on an electronic invoice provided monthly by Provider via Portfolio™.

## 50. PREPAID VOIP PLATFORM

### 50.1 SCOPE

50.1.1 Provider will provide Customer with "PREPAID VOIP PLATFORM Service" which allows Customer to access Provider's billing and validation platform in order to support Customer's prepaid applications (i.e., Voice Wing) and is subject to the terms, conditions, charges and discounts set forth herein. PREPAID VOIP PLATFORM Service includes, but is not limited to: processing of End User credit card transactions, recording and decrementing of minutes of use (MOU), support of special calling features, fraud management for credit card transactions, interface and support to customer service through web based applications, ACD support to live operators, call detail records for End User access and Customer general ledger entries.

50.1.2 Modifications to the requirements contained herein, including rates, may be made as needed as mutually agreed to by the Parties.

50.1.3 All of the terms and conditions set forth in the Agreement (including without limitation, provisions addressing Service Requests, payment of charges, suspension of service, Technical Standards, limitation of liability, indemnity and force majeure) will apply to PREPAID VOIP PLATFORM
