At this point we would like Waste Management to handle the hauling. I can sign the agreement but it cannot guarantee a volume at this point.

Is that ok?

I can get those started but I need the updated pricing returned to me. We can it operate on the 2017 pricing I submitted 3 yrs ago.

Is WM going to manage the hauling or will McKinley be contracting direct with Herrmanson?

We started a production run this afternoon that will last for 8+ days. We would like to proceed with two additional containers for OCC Rejects from Waste Management. Could you please provide a timeline on when those trailers could be delivered to the facility? They need to be 48' open top trailers that sit flush with the back of the chasie as we have been discussing.

Thanks.
