

GENERAL AND LOCAL EXCHANGE TARIFF

---

RULES AND REGULATIONS

B. Definitions

Local Service Area

The area within which telephone service is furnished under a specific exchange rate. This area may include one or more exchanges without the application of toll charges.

Measured Usage

A separate charge applicable to each outgoing local message (local exchange and EAS). Usage charges are based on call frequency, duration, and intraexchange or interexchange (non-toll) with a single per minute rate applicable 24 hours a day, 7 days a week. Measured usage is provided in conjunction with Basic Calling Service.

(D)  
|  
(D)

Message

A completed customer telephone call.

Mileage

Additional recurring charges based on distance measurement as provided in the tariff.

Minimum Contract Period

A minimum length of time for which a customer is obligated to pay for service, facilities, or equipment, whether or not retained by the customer for such minimum length of time.

Native American Lifeline<sup>1</sup>

Additional federal Lifeline and Link Up assistance for qualifying low-income individuals living on Native American tribal lands to reduce the cost of basic telephone service, initial connection charges and line extension charges. This program is in compliance with the FCC Twelfth Report and Order, CC-Docket 96-45 – Promoting Deployment of Subscriberhip in Underserved and Unserved Areas.

(T)

Network Access Line

A communications facility between the customer's premises and the serving central office, providing access to and from the telecommunications network.

<sup>1</sup> Program will be available on October 1, 2000.

(D)  
(T)

GENERAL AND LOCAL EXCHANGE TARIFF

---

NETWORK ACCESS SERVICES

NETWORK ACCESS SERVICES

A. General

Network Access Service is provided through facilities owned and maintained according to the standards of the Company. The territory served is shown on maps filed with the Commission by the Company. This territory is divided into exchanges.

The application of business or residence rates is determined by the actual or obvious use made of the service by the customer. Where only one Network Access line is provided at a location which is both business and residence, the business rate will apply.

The Network Access Line rates do not include a telephone.

Customers must select either Basic Calling Service or Premium Calling Service.

NETWORK ACCESS SERVICES

B. Conditions (Continued)

Term Commitment Options

One and three year term commitment options are offered to business Premium Calling Service customers who subscribe to the below Network Access Lines/Trunk services:

Business One-Party Line  
Business Trunk/Key System/PBX  
Direct Inward Dialing (DID) Trunk  
Direct Inward/Outward Dialing (DIOD) Trunk

All conditions specified for Business One-Party, Business Trunk/Key System/PBX, DID Service and DIOD Service apply.

The Line Connection Service Order Charge as identified in Section 5 of this tariff will not apply to the initial installation of one or three year term commitment options for business customers ordering Business One-Party Line, Trunk/Key System/PBX or DID Trunk service with Premium Calling Service. (D)

In the event the service is terminated by the customer prior to completion of the current term commitment period, the customer shall be liable for an early termination charge as set forth in Section 2, D, Termination Liability.

CUSTOM CALLING SERVICES

ENHANCED CALL FORWARDING

A. General

1. Enhanced Call Forwarding (ECF) is an Advanced Intelligent Network (AIN) based call forwarding service designed to provide and enhance personal mobility.
2. Enhanced Call Forwarding Service is furnished only from Central Offices which have been arranged to provide this service. ECF is provided subject to the availability of facilities.
3. Enhanced Call Forwarding is available to Business Individual Line and CentraNet® customers.

(D)  
(D)

B. Description of Service

1. ECF customers will be able to forward their calls from any touch call phone via a toll-free number. They will be able to forward to any dialable pager, mobile phone, work phone, or home phone.
2. ECF can be provided on the customer's existing telephone number (aka default number) as long as the customer's existing line resides behind an AIN capable switch, or via a personal number. This number is referred to as a default number.

SERVICES LIMITED TO EXISTING CUSTOMERS

NETWORK ACCESS SERVICES<sup>1</sup>

A. General

Network Access Service is provided through facilities owned and maintained according to the standards of the Company. The territory served is shown on maps filed with the Commission by the Company. This territory is divided into exchanges.

The application of business rates is determined by the actual or obvious use made of the service by the customer. Where only one Network Access line is provided at a location which is both business and residence, the business rate will apply.

The Network Access Line rates do not include a telephone.

Customers must select either Basic Calling Service or Premium Calling Service.
