21	1+,011+,900,976
22	Station restriction – 1AESS Centrex only, totally restrict incoming and outgoing
23	Station restriction – 1AESS Centrex only, totally restrict incoming
24	Station restriction – 1AESS Centrex only, totally restrict outgoing
25	Station restriction – 1AESS Centrex only, semi-restrict incoming and outgoing
26	Station restriction – 1AESS Centrex only, semi-restrict incoming
27	Station restriction – 1AESS Centrex only, semi-restrict outgoing
28	900,976,960,411,911
29	976,900,411,911,011+
30	1+,0+,0-,01+,011+,411,911,976,900

Column 3 - AMA Recording - Flat, Measured, or Message.

Measured only option w/ Unbundled Switching and Rebundled Service

Resale may be any of the three.

Column 4 - MLHG - Multiline Hunting - indicate by circling Yes or No

Column 5-OPR, DA or Both is a required field only when the CLEC selection is combined OPR/DA

Note: CLEC and Sales Executive will complete Columns 1-5

Column 6 – LCC look alike is determined by the Sales Executive and the Project Manager. You will need to interpret the type of service via the definition from a wholesale into a retail comparable, then select that type to determine the appropriate LCC. Online instructions can be located by utilizing the OSA database by viewing the URL: <http://saltnama02.uswc.uswest.com/cgi-bin/homepg> and stepping through the Job Aid below.

Step 1 Click on General Login red button.

Step 2 Click on "Instructions" to go to the detailed instructions on viewing,filtering etc.

Step 3 This database was not built for non-technical users but with just a little practice the average person can find necessary info.
