Ref. No. Docket PG-101597

May 17, 2011

Allen Lo
Home Motel
11621 Pacific Hwy SW
Tacoma, WA 98499

Dear Mr. Lo:

RE: 2010 Master Meter System Inspection – Home Motel

The Washington Utilities and Transportation Commission's pipeline safety staff (Staff) is in receipt of a letter, dated May 13, 2011 from Ms. Catherine Koch, Director of Compliance, Puget Sound Energy (PSE) and addressed to you regarding staff's 2010 inspection of the natural gas facility located at the above address. The letter states that the underground facility originally determined by staff to be a master meter system is in fact owned by PSE and will continue to be maintained by PSE going forward.

Based on this new information, staff no longer considers the Home Motel an owner/operator of a master meter system and thus not subject to state and federal pipeline safety regulations.

We thank you for your cooperation in this matter. If you have any questions, or need further assistance, please contact our Patti Johnson, (360) 870-4915 or (360) 664-1266.

Sincerely,

David D. Lykken
Pipeline Safety Director

cc. Catherine Koch, Director of Compliance, PSE
