Original Sheet No. 137.1

**Schedule 137
Renewable Generation Incentives**

AVAILABLE:

Individual Projects – Customers may apply for generation incentives as allowed by WAC 458-20-273 (Renewable energy system cost recovery) with the Washington University extension energy program (“Program Administrator”). Qualifying systems include solar energy systems, wind generators, and anaerobic digesters that process manure from livestock into biogas and dried manure using microorganisms in a closed oxygen free container. Availability of this program is determined by the Program Administrator under the provisions of RCW 82.16.110 through 82.16.150. In order to participate the customer must follow all rules of participation, certification requirements and any other additional processes as determined by the Program Administrator. The Company will follow the Program Administrator’s guidance on which Customers to pay, and the amount, each year.

Community Solar Projects – Generation incentives are available to customers that participate in a community solar project. The Company or community solar project administrator, on behalf of the community solar participants, may apply for an incentive cost recovery incentive with the Program Administrator. Availability of this program is determined by the Program Administrator under the provisions of RCW 82.16.110 through 82.16.150. In order to participate the customer must follow all rules of participation, certification requirements and any other additional processes as determined by the Program Administrator. The Company will follow the Program Administrator’s guidance on which Customers to pay, and the amount, each year.

Shared Commercial Solar Projects - Generation incentives are available to commercial customers that participate in a shared commercial solar project. The Company or administrator of a shared commercial solar project, on behalf of the shared commercial solar project participants, may apply for an incentive cost recovery incentive with the Program Administrator. Availability of this program is determined by the Program Administrator under the provisions of RCW 82.16.110 through 82.16.150. In order to participate the customer must follow all rules of participation, certification requirements and any other additional processes as determined by the Program Administrator. The Company will follow the Program Administrator’s guidance on which Customers to pay, and the amount, each year.

APPLICABLE:

To eligible Customers who install an eligible renewable generation system or agree to participate in a Community Solar project or a Shared Commercial Project interconnected in the Company’s Washington service territory. Customers must apply for interconnection with the Company and receive certification of their renewable energy system through the Program Administrator. Upon approval of completion of installation of a qualifying renewable energy system and meeting interconnection standards, the customer’s generation will be interconnected and measured by the Company.

CUSTOMER PAYMENTS FOR SYSTEMS CERTIFIED PRIOR TO SEPTEMBER 30, 2017:

Generation incentive payments will be based on a fiscal year of July 1st of one year through June 30th of the following year. Incentive payments will be made to eligible customers, as determined by the Program Administrator. Incentive payments to customers participating in non-utility community solar projects will be made in accordance with RCW 82.16 and RCW 80.28.

Participants in the renewable energy investment cost recovery program will continue to receive payments for electricity produced through June 30, 2020, at the same rates paid to participants for electricity produced between July 1, 2015, and June 30, 2016. The renewable generation incentive payment includes a credit
