RE: **Modification of Compliance Conditions – Extension of Required Training
Docket D-180342, All American Fencing**

Dear Mr. Johnson,

On May 4, 2018, the Utilities and Transportation Commission (Commission) issued a \$1,000 Penalty Assessment in Docket D-180342, against All American Fencing for one violation of RCW 19.122.030(2) for failing to request a dig ticket prior to performing an excavation. All American Fencing accepted the Commission's offer to suspend \$800 of the penalty if the owner and field supervisors completed the National Utility Contractor Association (NUCA) Dig Safe Training within six months of the issuance of the penalty and did not incur any additional dig law violations within 12 months.

Staff was recently contacted by All American Fencing, who requested that the timeframe for completing the training be extended to accommodate personal engagements and commitments previously scheduled involving some employees of All American Fencing including wedding engagements and travel.

Staff recommends that All American Fencing's request be granted and conditions of the penalty suspension be modified by extending the deadline to attend and they send proof of attendance of training to the Commission by May 31, 2019, and allow the suspended portion of the penalty to remain suspended until May 31, 2019.

Sincerely,

Sean C. Mayo
Pipeline Safety Director
