

REPORT OF SKYLINE TELECOM INC COMPANY UNDER THE
WASHINGTON UNIVERSAL COMMUNICATIONS SERVICES PROGRAM
IN COMPLIANCE WITH WAC 480-123-130

July 1, 2021

Docket No. UT-200676

File electronically

1. WAC 480-123-130(1)(a) - Access Lines Served [NECA 1.3 working loops]

	January 1, 2020	December 31, 2020
Residential	_____87_____	_____99_____
Business	_____15_____	_____15_____

2. WAC 480-123-130(1)(a) - Use of Support

The funds received by the Company from the universal communications services program in calendar year 2020 represent monies that the Company formerly received through the Washington Exchange Carrier Association (WECA) pooling process and the reduction of support under the Federal Communications Commission's (FCC's) Connect America Fund InterCarrier Compensation Fund (CAF ICC) program. As such, the funds from the universal communications services program contributed to defrayal of the ongoing operation and maintenance expenses of the Company. The funds from the universal communication services program are contributing to the Company's ongoing provision of high-quality basic telecommunications service to customers residing in the area the Company serves.

In December 2020, the Company received a payment of \$143,129 from the universal communications services program for the fiscal year ending June 30, 2021.

During the first six months of 2021, the Company undertook the engineering of a fiber to the home project in the MT Hull exchange, noted as Phase 2. This project will replace the current existing copper and is designed in three phases. Phase 1 deployed fiber to 17 locations. Permits have been secured and the necessary materials have been ordered and received. A potential of 25 subscribers can be reached with this phase. Construction is slated to begin early this summer and be complete by year end. The funds received from the universal communications services program can be viewed as contributing to the Company's ability to perform that project, including, without limitation, the repayment of loan funds.

Currently we have 216 locations that have access to the internet. Of these locations, 93 have the ability to achieve speeds greater than or equal to 25/3.

WAC 480-123-130(1)(d) - Unfilled Consumer Requests for New Basic Telecommunications Service*

None

* Service requests that are ongoing but still within normal processing times are not counted as unfulfilled.

3. WAC 480-123-130(1)(g & i) - FCC Form 477

This form was previously filed on or about March 1, 2021 under Docket UT-210002.

4. WAC 480-123-130(1)(h) - Report on Operational Efficiencies/Business Plan Modifications

The Company continually reviews its operations to determine if efficiencies can be achieved. The Company already has a plan in place to concentrate on improving broadband service while continuing to provide high-quality basic telecommunications service to the customers that are located within the area that the Company serves. The Company continues to serve the broadband needs of its subscribers, even though doing so results in a net loss of income. The funds received from the universal communications services program can be viewed as assisting in the Company's efforts to obtain operational efficiencies.

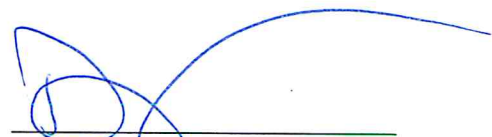

5. WAC 480-123-130(1)(j) and (k) - Other information

N/A

Certified Statement as required by WAC 480-123-130(1)(d):

I, Delinda Kluser, am an officer of Skyline Telcom Inc, and upon personal knowledge and with responsibility therefor, hereby certify under penalty of perjury, that Skyline Telecom Inc, materially complied with Commission rules under Chapter 480-120 WAC that are applicable to the Company and its provision of service within the area for which the Company received universal communications services program support.

Signed at Mount Vernon, Oregon this 16th day of June, 2021.

Vice-Pres, Manager
