Re: Annual USF Reporting UT-210480

Dear Mr. Johnson:

WUTC Staff has requested information to supplement The Toledo Telephone Co., Inc. petition to receive State Universal Service funds.

At the time of the filing, the company has 1,654 broadband subscribers and had built out fiber services to 2200 locations. There are very few households that do not subscribe to our services, the other unsubscribed locations are where the company has fiber in the right-of-way ready to serve tax parcels awaiting new single family construction. Fiber will still need to be placed from the right-of-way to the home, no additional right-of-way construction will be required.

The certifications and reports that were requested by staff are enclosed.

Sincerely,

A handwritten signature in black ink, appearing to read "Dale Merten".
