Dear Mr. Killip,

Sound Disposal Holdings, Inc. dba Sound Disposal, Inc. (G-82) is seeking to decrease its commodity adjustment with this filing. The processing costs for recyclable materials decreased during the first six months of 2024, and Sound would like to timely pass these changes on to its customers.

We respectfully request a waiver from WAC 480-70-351(2) which requires use of a 12-month historical period for calculating recycling credits or charges. Due to the volatility in the recycling commodity markets, Sound has been submitting commodity adjustment filings with the UTC every six months, since early 2023. The supporting workbook included with this filing calculates the commodity adjustment using the most recent six-month historical period. We also request a six-month payback period, expiring March 31, 2025.

We have provided revised tariff pages: 4<sup>th</sup> Revised Page 1 - Check Sheet; 4<sup>th</sup> Revised Page 22 – Item 100 - Residential Service; and 3<sup>rd</sup> Revised Page 25 – Item 105 - Multi-family Service. If the Commission approves this filing, the company's overall revenue and costs will increase by approximately 0.04 percent or \$938. The requested effective date for this tariff revision is October 1, 2024.

The company serves approximately 1,750 residential customers and approximately 550 multifamily and commercial customers in the City of Edmonds and Snohomish County. Sound will notify customers of these changes on the next regular billing under the provision of WAC 480-70- 271(2)(a)(iii). Therefore, an LSN request is also being provided, in compliance with commission staff's clarification for customer notices regarding RCW 81.28.050.

Portions of this filing are considered confidential under WAC 480-07-160 because it contains valuable competitive cost and financial commercial information. Redacted and non-redacted copies of these documents are provided where appropriate.
