I live in the rural residential neighborhood that surrounds DTG in Maltby. This area is zoned R5, yet we are forced to listen to the very loud industrial noises all day 6 days a week. DTG violates the county noise ordinance each of those 6 days by starting before 7 AM. They are operating under multiple violations from the county, and have basically destroyed our rural residential neighborhood. I encourage you to come take a tour of our neighborhood before granting them a permit, which doesn't fit in a rural neighborhood. The number of big trucks in our neighborhood is horrible. Last year the hearing examiner counted a truck entering or leaving DTG every 2 minutes. Again, we're zoned rural residential. Thank you for your consideration.
