NOTES

(1) The following table shows how the decoupled revenue per customer has tracked with use per customer for 2019. The year-to-date impact is higher usage and revenue from residential electric and all natural gas customers resulting in rebate deferrals while lower usage and revenues from non-residential electric customers resulting in surcharge deferrals.

Summarized Quarterly and Year to Date Use per Customer and Decoupled Revenue Per Customer Change versus Authorized

					YTD	
	Q1	Q2	Q3	Q4	Weighted	%
Electric Residential						
Change in Use per Customer	76				76	2.2%
Change in Decoupled Revenue per Customer	\$14.50				\$14.50	6.8%

- 2) The contra asset accounting shown on page 6 is for financial reporting purposes only. Generally Accepted Accounting Principles allow revenue recognition from alternative revenue programs up to the amount expected to be collected within 24 months following the end of the annual period in which they are recognized. Due to the 3% annual rate increase limitation a portion of a 2019 surcharge may not be fully recovered by 12/31/2021 and therefore would not be recognizable as income for financial reporting purposes in 2019. The income statement impact of any contra deferral entries will be eliminated for Commission Basis results reporting.
- **3)**Customer counts in February and March were affected by an unbilled customer adjustment in February, that was reversed in March, due to an extraordinary number of meter reading routesthat did not get included in February billed revenue.
