REQUESTED BY: John Wilson

RE: Power Costs

Please provide support for the pasted-in values in rows 15 and 16 of Exh. BDM-17C.

Response:

The values in rows 15 and 16 of the Sixteenth Exhibit to the Prefiled Direct Testimony of Brennan D. Mueller, Exh. BDM-17C, are manually entered values. These values were manually selected to maximize the annual benefit of gas storage utilization subject to constraints on the maximum rate of injection/withdrawal shown in rows 12 and 13, maximum and minimum storage volumes shown in rows 23 and 24, and the relative monthly price of natural gas at the Rockies hub shown in rows 9 and 10.
