

Washington Docket No. UT 100820
Response to Integra Data Request No. 175
Response Date: October 1, 2010

Integra Data Request No. 175:

If the response to Request Number 18 is in the negative (no), is the pre-population of information functionality currently being evaluated and, if so, identify any dates or timeframes that have or are being considered or evaluated. Please provide any documents, including any EASE/LSR development roadmap(s), referring or relating to evaluation of pre- population of information.

CenturyLink Objections:

CenturyLink objects to this request because it is vague, ambiguous and imprecise in that it fails to identify what is referenced by "this functionality."

CenturyLink's Response:

Subject to and without waiving its objections, CenturyLink assumes that Integra intends to reference the functionality described in DR-174 and provides the following response: This functionality is on the EASE/LSR development roadmap and is currently being evaluated.

CenturyLink has opened an internal project request for pre-population of LSRs. The project completed the high level requirements phase and business requirements have been completed. A high level, level of effort (LOE) has been completed and the project is in the approval process. Following approval, during the normal project approval process, the project will progress through the normal development and testing phases and a target implementation date will be set. CenturyLink will provide customer notification consistent with existing timelines and practices one a target implementation date has been set for this project.
