

**Washington Docket No. UT 100820**  
**Response to Integra Data Request No. 177**  
**Response Date: October 1, 2010**

**Integra Data Request No. 177:**

Has CenturyLink declined, put off until later, or otherwise delayed fulfillment of any request from any carrier for use of an application-to-application interface or e- bonding relating to processing of LSRs? If so:

- a. Identify each carrier;
- b. State the date the request was made;
- c. State the city and state for which the request was made;
- d. State each reason (*e.g.*, rural carrier status or any other reason) why CenturyLink declined, put off, or delayed fulfillment of the request.

**CenturyLink Objections:**

CenturyLink objects to this request to the extent it applies to matters other than Washington intrastate operations subject to the jurisdiction of the Commission because such matters are irrelevant and the request is not reasonably calculated to lead to the discovery of admissible evidence. CenturyLink further objects to the request to the extent that it calls for information that is third-party proprietary information which is subject to a confidentiality agreement and may be confidential carrier info that may not be disclosed under 47 U.S.C. 222(b).

**CenturyLink Response:**

Subject to and without waiving its objections, CenturyLink provides the following response: CenturyLink has not received any formal requests for application to application (UOM) ebonding for LSRs.
