Lisa,

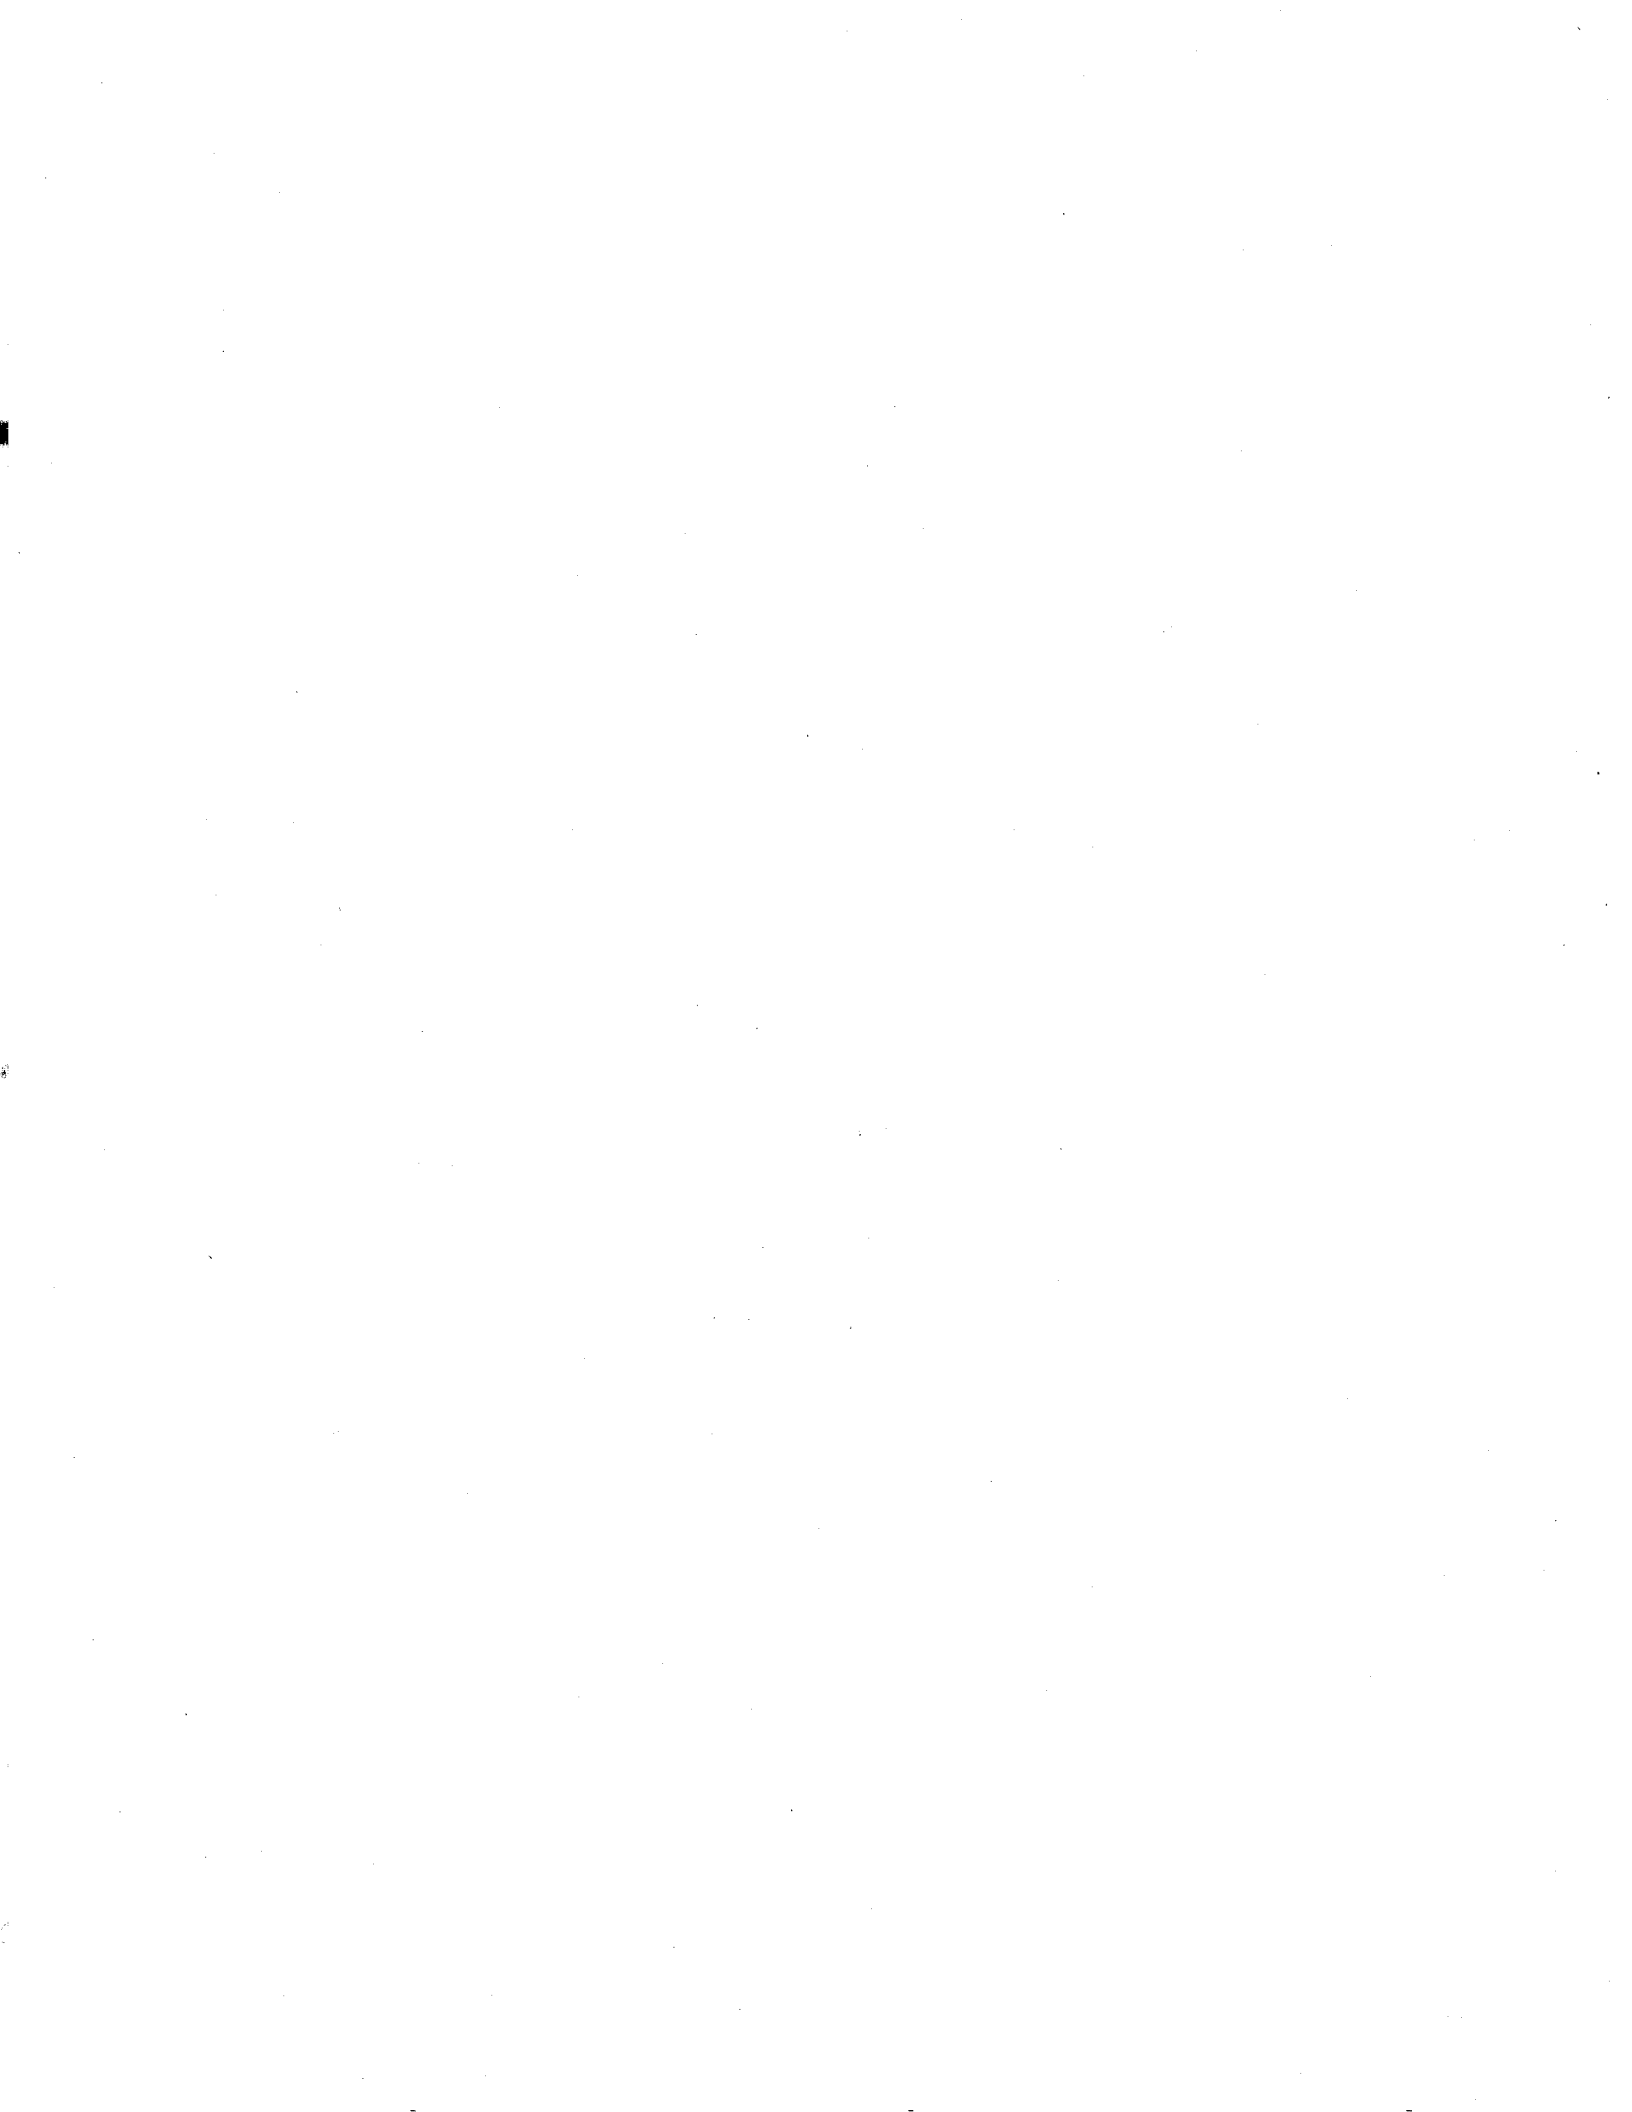

Please find attached 313 individual comments from Environment Washington members regarding PSE's 2015 IRP (UE-141170 and UG-141169). These comments are all individual comments and should be treated as such.

If you should have any questions, please don't hesitate to contact me. Thank you to the Commission for their consideration of these comments.

Sincerely,

Subject: Comment on Puget Sound Energy's 2015 IRP (UE-141170 and UG-141169)

Dear UTC Commissioners,

As a concerned Washington resident, I urge you not to acknowledge any proposal that does not address a retirement plan for Puget Sound Energy's dirty, dangerous, and increasingly expensive coal plant. You said it yourselves: "To embark on investments [in Colstrip] with so much uncertainty could be harmful to PSE, its ratepayers and the broader public interest.

We have a choice to make--dump hundreds of millions of dollars of our money into an outdated, out-of-state coal plant or invest that money right here in Washington and throughout the region building energy efficiency and renewable energy solutions that will create thousands of well-paying jobs, improve public health, and significantly cut carbon pollution.

All across the country, communities and utilities have declared that coal is too costly and risky for ratepayers, including Portland General Electric and TransAlta here in the Northwest. More than 200 coal plants are slated to retire. It is time to develop a plan to transition off coal and to invest in clean energy for the benefit of ratepayers, our local economy, and our children's future.

Sincerely,
