**RE: 2016 Qualifying Storm Event Report – March 1, 2016 Event - Corrected
UE-040641 and UG-040640**

Dear Mr. King:

Pursuant to paragraph No. 246 of Final Order No. 06, Docket Nos. UE-040641 and UG-040640, et al.¹ ("Order No. 6"), Puget Sound Energy ("PSE") provides herewith a corrected detailed report for the qualifying storm event which occurred on March 1, 2016. This filing replaces the filing made May 25, 2016 in the above-referenced docket in its entirety.

This is the first qualifying storm for 2016. In addition to documenting the impacts of the March 1, storm event, this report also summarizes PSE's response to the event and the up-to-date 2016 electric system restoration costs associated with this qualifying event.

This report is submitted for informational purposes only, as the resulting restoration costs for this event remain below the threshold for requesting deferral treatment. However, the deferrable costs incurred as a result of this storm will be accrued toward the \$8 million threshold for 2015. PSE will submit additional supplemental Qualifying Events Reports to update the cost information if needed.

If you have any questions regarding the information in this filing, please contact Chris Schaefer at (425) 456-2932. If you have any other questions, please contact me at (425) 456-2110.

Sincerely,
Chris Schaefer
Manager, Regulatory Planning & Compliance
