RE: *Petition of Puget Sound Energy to Update Methodologies Used to Allocate Electric Cost of Service and for Electric Rate Design Purposes*, Docket UE-141368

TO ALL PARTIES:

On July 1, 2014, Puget Sound Energy (PSE or Company) filed with the Washington Utilities and Transportation Commission (Commission) a petition to update methodologies used to allocate electric cost of service and for electric rate design purposes. The Commission convened a prehearing conference in this docket on August 18, 2014, and adopted a procedural schedule for this proceeding, including setting an evidentiary hearing for December 4, 2014.

On October 20, 2014, Commission Staff (Staff) informally notified the Commission that the parties had reached an agreement to settle this matter and would be submitting it as soon as possible. Staff requested, on behalf of the parties, that the remaining procedural schedule in this matter be suspended.

The Commission finds good cause to suspend the procedural schedule and therefore grants the parties' request.

**THE COMMISSION GIVES NOTICE That the procedural schedule in this matter is suspended. By November 4, 2014, the parties must either file a settlement agreement and supporting narrative or a status report of their negotiations.**
