Washington Utilities and Transportation Commissioners
P.O. Box 47250
Olympia, Washington 98504-7250

Dear Sir:

I am writing in regard to docket numbers UE-160918 and UG-160919.

As a PSE customer I am opposed to PSE's proposed liquid natural gas plant.

We must make every effort to stop using fossil fuel of any kind. Even in rainy western Washington solar power is viable for much of our energy needs and PSE should be investing more in renewable energy sources instead of liquid natural gas.

Sincerely,

Mary Alice Sanguinetti
