YourTel America, Inc. provides YourTel Wireless mobile telecommunications services using the geographic areas covered by the Nationwide Sprint Network footprint. Local phone numbers may not be available in all areas. Subscribers do not have the ability use YourTel Wireless service with any other wireless phone, device, or on another network. Subscribers may also not use a YourTel wireless handset with any other service or network. Airtime may be used for domestic calling from the United States and for other services as provided in these Terms and Conditions of Service. YourTel Wireless service is for personal use only and may not be used in a manner that interferes with another YourTel wireless customer's use of service. YourTel has determined that ability to provide good service to subscribers may be impaired when customers place abnormally high numbers of calls, sends or receives unusually high numbers of messages, or repeatedly place calls of unusually long duration, relative to typical usage by other YourTel wireless customers on similar service plans. Such non-typical usage suggests that a wireless phone is being used other than for personal use and is in violation of these Terms and Conditions of Service. YourTel Wireless services are provided solely for live dialogue between two individuals. YourTel Wireless services may not be used for any type of monitoring services, any data transmissions, or other non-personal related connections that do not consist of uninterrupted live dialogue between two individuals. A YourTel wireless subscriber account may be terminated, without notice, if a subscriber's usage is determined to be used in violation of the Terms and Conditions of Service for non-personal use, pager service, voicemail retrieval service, or other uses deemed inappropriate.

YourTel Wireless services use radio transmissions and are therefore affected by limitations. Coverage is not available everywhere. Quality of service may be affected by conditions beyond YourTel's control, including atmospheric, geographical, or topographical conditions. Service may also be affected by damage to wireless handsets. YourTel does not guarantee, or warrant, that service will be available at any specific time or geographical location, or that service will be provided without possible interruption. You should therefore never solely rely on your wireless phone for emergency calls, such as to 911. YourTel wireless customers have access to dial 911 in an emergency. However, occasionally a subscriber may attempt to call 911 in an area where there is no wireless coverage. If there is no wireless coverage, a subscriber's call to 911 may not go through and the subscriber should dial 911 from the nearest landline phone.

By applying or activating service with YourTel, a subscriber agrees not to use YourTel Wireless services in any way that is illegal, abusive, or fraudulent. This will be determined by YourTel in its sole discretion. You may also not alter any of the software or hardware on your YourTel wireless handset for any purpose. YourTel wireless phones may not be sold to third parties.

Unlimited Plan Usage

Unlimited Plan services are provided solely for live dialogue between two individuals for personal, non-commercial use. "Unlimited" does not mean unreasonable use. Unreasonable voice use includes, but is not limited to, the following: machine-to-machine, monitoring services, transmission of broadcasts or recorded material, telemarketing, call center services, autodialed calls, an abnormally high number of conference calling, calls, or messages, and/or calls of abnormally long duration and any and all commercial uses. Other uses have the potential to disrupt reliable service to other customers and/or have a disproportionate impact on network resources, so are therefore considered abuse of the service and will not be allowed.

We may determine at our sole discretion that abuse is taking place if, for instance, you are placing an unusually high number of calls of unusually long duration. We reserve the right to respond to such abuse by placing you on a different class of service or, at our discretion, terminating your service.

This does not mean that there is any type of cap on the minutes and/or texts customers are allowed to use. A proprietary program of complex algorithms is used to identify the behavior patterns of customers who are abusing the unlimited plan. Those who have been determined to be abusing the system will have their account terminated.

YourTel's unlimited data or messaging features are provided solely for purposes of non-commercial messaging, Internet browsing, e-mail access, and the non-continuous streaming of data (e.g. downloading files). pending upon your rate plant, your usage of data may be metered by YourTel. Your unlimited data plan will include a data access usage limit of 1 Gig per service cycle. While most common uses are permitted by our data and messaging features, there are certain uses that cause extreme network capacity issues and are therefore prohibited. Our data and messaging services may not be used: (a) to generate excessive amounts of Internet traffic through the continuous, unattended streaming, downloading, or uploading of videos or other files, (b) to operate hosting services, (c) to maintain continuous active network connections to the Internet such as through a web camera or automated machine-to-machine connection or peer-to-peer (P2P) file sharing, (d) to disrupt e-mail use by others using automated or manual routines, including, but not limited to "auto-responders" or cancel bots or other similar routines, (e) to transmit or facilitate any unsolicited or unauthorized advertising, promotional materials, "spam," unsolicited commercial or bulk e-mail or messaging, (f) for activities adversely affecting the ability of other people or systems to use either YourTel's wireless services or other parties' Internet-based resources, including, but not limited to, "denial of service" (DoS) attacks against another network host or individual user, (g) for an activity that tethers or connects any device to personal computers or other equipment for the purpose of transmitting wireless data over the network (unless customer is using a plan designated for such usage), (h) as a dedicated data connection, (i) for abnormally long data transmissions, or (j) for any other reason that, in our sole discretion, violates our policy of providing "unlimited" Services for non-commercial use.
