It has come to the Commission's attention that an inadvertent clerical error occurred in a prior order involving Washington Natural Gas Company service territory. The Company authorizes the Commission to correct the order and its Certificate without notice or hearing.

In its order in Docket UG-920843 the Commission referred to territory authorized to the company in Dockets UG-900727, UG-900782, and UG-911010. In fact, the Commission authorized no territory to the Company in those proceedings. References to those dockets should therefore be deleted and the order should be deemed corrected.

Because the text of the Company's Certificate also includes those references, a revised Certificate should be issued upon the Company's surrender of its current certificate, consistent with the Commission's order in Docket UG-931010.

O R D E R

THE COMMISSION ORDERS That the Commission's Order in Docket UG-920843 is corrected to delete references to Dockets UG-900727, UG-900782, and UG-911010.

DATED at Olympia, Washington, and effective this 30th day of November, 1994.
