

10/25/17
Hi, Autumn falls here in
great Beauty.
The public utilities & services
must become owned, operated &
managed by the public. The endless
efforts to ever raise the costs of
such by artists & the like, is all
the reason & proof needed. Private
business "bottom line" is ever
greater profits. I am opposed
to artist's request of the 3 yr.
Rate Plan. Obviously they are
mispending ~~the~~ current profits
~~and future~~ profit increases
over infrastructure support.
Good to you.
Tommy Walen ~~Tommy Walen~~
