WUTC Data Request 175

**WUTC Data Request 175**

**Re: Confidential Attachment to the Company's Response to Staff Data Request No. 170 and Company Compliance Filing dated May 24, 2011, Confidential Attachment 4 Page 4 and 5.**

1. Staff understands the biomass resource shown in the West Control Area is not included in the WCA because the investment and all RECs are assigned to Oregon and the ETO, or a market does not really exist for these RECs. Please confirm or deny. If you deny, please explain in detail why Staff's understanding is incorrect.
2. Staff understands that certain large hydro resources may generate RECs, however there is no market for them, as indicated by no sales for this category. Please confirm or deny. If you deny, please explain in detail why Staff's understanding is incorrect.

**Response to WUTC Data Request 175**

1. The only biomass facility referenced in Confidential Attachment WUTC 170 is included in the west control area. The Company owns the RECs but, currently, a market does not exist for these RECs.
2. Confirmed.
