Dear Ms. Washburn:

Subject: CONTRACT NO. 1322ICB

Verizon Northwest Inc. submits for filing Contract No. 1322ICB, Amendment No. 3 to an agreement between the State of Washington Department of Transportation and Verizon Northwest Inc. This contract provides for 5-1-1 Routing Service. The original agreement was filed under Contract No. 1259, effective July 10, 2003 in Docket No. UT-031039 for a two year term. Amendment No. 1 was not made effective by the Commission. Amendment No. 2 was filed under Contract No. 1306ICB, effective June 30, 2005 to continue service on a month to month basis for up to twelve months. The purpose of Amendment No. 3 is 1) to extend the term of the Agreement for currently installed Service on a month to month basis for no more than twelve (12) months, 2) provide for a transition of Service to a general tariff offering in the event a general tariff offering for this Service become available from Verizon, 3) clearly specify the nonrecurring charge under Section 3 of the Amendment that shall apply for the Service during the Extension Term and 4) remove the reference to tariff remote call forwarding charges. The renewal term will be July 11, 2006 through July 10, 2007. The company provides this service under contract because the service is not available under tariff.

The company requests approval on less than required notice. The current agreement will expire on July 11, 2006, with no provision to extend the agreement, therefore; without approval of the attached amendment, the customer's service would have to be disconnected upon expiration of the current term as the company can't provide the service without an effective contract. Since the Company and Staff have agreed to the

terms for providing this service, no new cost support documentation is included with this filing.

The Company requests an effective date of July 11, 2006. Please contact Lin Fogg at (425) 261-6380, if you have questions.

Very truly yours,

A handwritten signature in blue ink, appearing to read "D. S. Valdez".

Description of Service: 5-1-1 Routing Service is a three-digit local dialing arrangement available in specified areas for the delivery of travel information services via voice grade facilities. Pursuant to Order 00-256 issued by the FCC in CC Docket 92-105, the 5-1-1 code was made available for access to travel information services. 5-1-1 service is designed to be offered by State Transportation Departments or their designee. This service utilizes AIN technology in an application similar to a Single Number service which routes the 5-1-1 call based on the number the caller is calling from. NPA, NPA/NXX, Zip+4, Zip Code, or Signal Point code routing will direct the incoming call to the correct 5-1-1 center.
