January 28, 2009

NOTICE CANCELLING PREHEARING CONFERENCE

RE: *In re Application of Miller Schmer, Inc., for certificate of public convenience and necessity in furnishing passenger and express service, Docket TC-082064*

TO ALL PARTIES:

The Washington Utilities and Transportation Commission (Commission) gave notice on January 8, 2009, that it would convene a prehearing conference in this proceeding on February 4, 2009. It has since come to the attention of the Commission that the Commission's notice of the application in the Transportation Docket contained an erroneous description of the proposed service route.

Therefore, it is appropriate to cancel the previously scheduled prehearing conference in order to allow the 30 day protest period to run under the revised language published in the January 28, 2009 Transportation Docket.

THE COMMISSION GIVES NOTICE that the previously scheduled prehearing conference, set for February 4, 2009, is cancelled. The Commission will establish a date for a prehearing conference, if necessary, by further notice.

Sincerely,

MARGUERITE E. FRIEDLANDER
Administrative Law Judge
