

II. BACKGROUND

T-Mobile was designated as an ETC by the Commission on October 14, 2010 in the *Designating Order*. Pursuant to discussions with Staff of the Commission, on April 5, 2011, T-Mobile filed an amended list of the local exchange carrier wire centers that comprise T-Mobile's designated service area. The Commission accepted T-Mobile's revised ETC service area list of telephone company wire centers and issued Order Number 02 in Docket UT-101060 with the revised list of local exchange carrier wire centers that comprise T-Mobile's designated service area ("Designated Area"), which is included as Attachment A.

On October 27, 2011, in its *USF/ICC Transformation Order*, the FCC adopted changes to its universal service rules,³ and, on February 6, 2012, in its *Lifeline Reform Order*, the FCC adopted further changes to its universal service rules governing the provision of Lifeline service.⁴ Among the changes adopted in the *USF/ICC Transformation Order* and *Lifeline Reform Order*, the FCC revised the annual reporting and certification requirements, which are now reflected in 47 C.F.R. §§ 54.313, 54.314 and 54.422. The revised *Washington Certification Requirements* are largely consistent with the annual reporting requirements in the FCC rules.⁵ In this Petition, T-Mobile addresses each of the reporting requirements adopted by the Commission in the *Designating Order* and the *Washington Certification Requirements*, and incorporates the identified attachments, some of which contain confidential and proprietary information and are filed under seal. In addition, T-Mobile is separately filing with the Commission a copy of its

³ *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order and Further Notice of Proposed Rulemaking, FCC 11-161 (rel. Nov. 18, 2011) ("*USF/ICC Transformation Order*").

⁴ *In the Matter of Lifeline and Link Up Reform and Modernization, Report and Order and Further Notice of Proposed Rulemaking*, WC Docket No. 11-42, FCC 12-11, released February 6, 2012 ("*Lifeline Reform Order*").

⁵ *In the Matter of Federal-State Joint Board on Universal Service, Report and Order*, FCC 05-46, March 17, 2005 ("*ETC Additional Requirements Order*").

FCC Form 481 Annual Report (Docket UT-150063) and copies of its FCC Form 690 Annual Reports (Docket UT-120512).

III. FEDERAL HIGH COST UNIVERSAL SERVICE SUPPORT RECEIVED

In the *USF/ICC Transformation Order*, the FCC took several steps toward developing a budget for the Universal Service Fund including (among other things) eliminating the identical support rule, limiting the per line high cost support, freezing high cost support for all competitive ETCs ("CETCs") for an interim period of six months in 2012, and phasing down all high cost support for CETCs over a five year period beginning in July 2012. Pursuant to the *USF/ICC Transformation Order*, monthly high cost support for CETCs is the aggregate support received in 2011 divided by twelve. Beginning in July 2012, CETCs were subject to a 20 percent per year phase down, with all legacy high cost support to CETCs being eliminated by 2016.⁶

In the calendar year 2014, T-Mobile received a total of \$1,328,148 in federal high cost universal service support for its Designated Area in Washington. Based upon support received to date in 2015, T-Mobile estimates that it will receive the same amount of federal high cost universal service support, \$1,328,148, for its Designated Area in 2015, which is based upon the steps taken by the FCC in the *USF/ICC Transformation Order* (identified above) to reduce legacy funding for CETCs, subject to the halt in the phase down of legacy high cost support. This estimate is based on current information and is subject to change.

IV. ANNUAL CERTIFICATIONS AND REPORTING

A. Use of Universal Service Support and Benefits to Consumers

Standard 1 of the *Washington Certification Requirements* requires that an ETC submit a report providing a "substantive description of investments made and expenses paid with support

⁶ 47 C.F.R. § 54.307(e)(5). The phase down of high cost support for competitive ETCs was halted in July 2014 because Mobility Fund Phase II is not yet operational; consequently, projected high cost support for 2015 is based upon the monthly support received during the first six months of 2015.

from the federal high cost fund,” including “the company’s gross capital expenditures and operating expenses made with federal high-cost support received by the ETC in the preceding calendar year along with a description of major projects and affected exchanges,” plus “a substantive description the benefits to consumers that resulted from the investments and expenses reported.”⁷ T-Mobile’s report regarding its use of federal high cost universal service support for 2014 is included as Confidential Attachment B.

The *Washington Certification Requirements*⁸ and federal law⁹ requires ETCs to use support “only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.” The FCC rules require states to “file an annual certification with the Administrator and the Commission stating that all federal high-cost support provided to such carriers within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.”¹⁰ Included in Attachment C is T-Mobile’s annual certification based upon federal and Washington requirements.

B. Local Service Outages

Standard 2 of the *Washington Certification Requirements* is now consistent with the FCC outage reporting requirement [47 C.F.R. § 54.313(a)(2)] requiring “detailed information on any outage in the service area (during the prior calendar year) of at least thirty minutes in duration in which the ETC owns, operates, leases, or otherwise utilizes facilities, that potentially affect:

⁷ WAC 480-123-070(1).

⁸ WAC 480-123-060.

⁹ 47 U.S.C. § 254(e) and 47 C.F.R. § 54.7.

¹⁰ 47 C.F.R. § 54.314(a).

(i) At least ten percent of the end users; or (ii) A 911 special facility, as defined in 47 C.F.R. Sect. 4.5(e).”¹¹ ETCs must include the following information in their outage reports:¹²

- (a) the date and time of onset of the outage;
- (b) a brief description of the outage and its resolution;
- (c) the particular services affected;
- (d) the geographic areas affected by the outage;
- (e) steps taken to prevent a similar situation in the future; and
- (f) the number of customers affected.

This outage information was included in T-Mobile’s FCC Form 481 Annual Report filed with the FCC and USAC on or about July 1, 2015, and a copy of this report is being filed contemporaneous herewith in Commission Docket No. UT-150063.¹³

C. Requests For Service

Standard 3 of the *Washington Certification Requirements* and 47 C.F.R. § 54.313(a)(3) require an ETC to identify the number of requests for service from consumers within its designated service areas that were unfulfilled in the prior calendar year and describe in detail how the Company attempted to provide service to those potential customers.¹⁴ The unfulfilled service request information was included in T-Mobile’s FCC Form 481 Annual Report filed with the FCC and USAC on or about July 1, 2015, and a copy of this report is being filed contemporaneous herewith in Commission Docket No. UT-150063.

¹¹ WAC 480-123-070(2); see also 47 C.F.R. § 54.313(a)(2).

¹² WAC 480-123-070(2).

¹³ WAC 480-123-070(8) specifically allows ETCs to reference reports filed with a federal agency that include the information required by the Commission’s rules.

¹⁴ WAC 480-123-070(3).

D. Complaints Per 1,000 Handsets

Standard 4 of the *Washington Certification Requirements* requires an ETC to report the number of complaints, per 1,000 connections, made to the FCC, or (separately) to the consumer protection division of the Office of the Attorney General of Washington during the previous calendar year.¹⁵ The Washington Certification Requirements also required ETCs to “report the number of consumer complaints in each general category (or example, billing disputes, service quality).”¹⁶ Confidential Attachment D includes the complaints per 1,000 connections consistent with the applicable requirements and the number of consumer complaints in each general category.

E. Certification of Compliance with Applicable Service Quality Standards and Consumer Protection Rules

Standard 5 of the *Washington Certification Requirements* requires an ETC to certify that it met substantially the applicable service quality standard and consumer protection rules found in WAC 480-123-030(1)(h), which, for a wireless carrier, is the CTIA-The Wireless Association’s® (“CTIA”) Consumer Code for Wireless Service (“Consumer Code”).¹⁷ 47 C.F.R. § 54.313(a)(5) similarly requires a wireless ETC to certify that it complies with the CTIA Consumer Code.¹⁸ T-Mobile is a signatory to the Consumer Code and meets applicable service quality and consumer protection rules for wireless carriers. T-Mobile’s certification of compliance with the applicable service quality standard and consumer protection rules was included in its FCC Form 481 Annual Report filed with the FCC and USAC on or about July 1,

¹⁵ WAC 480-123-070(4); 47 C.F.R. § 54.313(a)(4) also requires an ETC to report the number of complaints per 1,000 connections, but this report could include complaints to other entities and is included in T-Mobile’s FCC Form 481 Annual Report filed with the FCC and USAC on or about July 1, 2015, a copy of which is being filed contemporaneous herewith in Commission Docket No. UT-150063.

¹⁶ WAC 480-123-070(4).

¹⁷ WAC 480-123-070(5); WAC 480-123-030(1)(h).

¹⁸ 47 C.F.R. 54.313(a)(5).

2015, and a copy of this report is being filed contemporaneous herewith in Commission Docket No. UT-150063.

F. Certification of Ability to Function in Emergency Situations

Standard 6 of the *Washington Certification Requirements* requires an ETC to annually certify that it has the ability to function in emergency situations based on continued adherence to the applicable standards, including that, “when commercial power is not available, it has a reasonable amount of backup power (fixed, portable or other backup power source) for its cell sites” and “cell sites do not include any small cell facility as defined in RCW 80.36.375(2)(d) or any in building wireless installation.”¹⁹ 47 C.F.R. § 54.313(a)(6) similarly requires an ETC to certify its ability to function in emergency situations. T-Mobile’s certification of ability to function in emergency situations was included in its FCC Form 481 Annual Report filed with the FCC and USAC on or about July 1, 2015, and a copy of this report , and a copy of this report is being filed contemporaneous herewith in Commission Docket No. UT-150063.

I. T-Mobile Back Up Power Exemption for Cell Sites

The Commission recently modified the *Washington Certification Requirements* to require ETCs to certify they have a “reasonable amount of backup power” at cell sites, eliminating the previous requirement of having at least four (4) hours of back-up power at each cell site. In the *Designating Order*, the Commission granted T-Mobile a temporary exemption from the requirement of four hours of back-up power at each cell site (the “Exemption”) for certain small or in-building cell sites. The Exemption allows T-Mobile to use reliable power sources other than battery to meet the four-hour back-up standard and a period of four (4) years to complete the necessary upgrades to meet the standard. The Exemption also required T-Mobile to (a) provide four (4) hours of back-up power at all new cell sites constructed in the Designated Area,

¹⁹ WAC 480-123-070(6); WAC 480-123-030(1)(g).

subject to its right to seek exemption from the requirement if warranted; (b) include a compliance status report on back-up power upgrades in its annual certification filing; and (c) file a final compliance report upon completion of the necessary upgrades or at the expiration of the Exemption, whichever occurs first.²⁰ The Exemption was granted until December 31, 2014. On September 24, 2014, the Commission granted T-Mobile an extension of its Exemption until December 31, 2015.²¹

Confidential Attachment E includes an update on the cell sites subject to the original Exemption. Attachment F is T-Mobile's Certification of compliance with the Commission's new backup power requirements.

G. Advertising Certification

Standard 7 of the *Washington Certification Requirements* requires an ETC to annually certify that it has publicized the availability of its applicable telephone assistance programs, such as Lifeline Service, in a manner reasonably designed to reach those likely to qualify for service, including to residents of federally recognized Indian reservations within the ETC's designated service area.²² Attachment G includes examples of the advertising that T-Mobile completed in its Designated Area in 2014. Included in Attachment F includes T-Mobile's certification that it appropriately advertised the availability of its telephone assistance program in a manner reasonable designed to reach those likely to qualify for service in accordance with Standard 7 of the *Washington Certification Requirements*.

²⁰ On July 25, 2014, T-Mobile filed a Petition for Extension of Temporary Exemption From WAC 480-123-030(1)(g) and WAC 480-123-070(6) in Docket No. UT-101060 requesting an extension to the previously granted Exemption..

²¹ *In the Matter of the Petition of T-Mobile West LLC, Petition for Extension of Temporary Partial Exemption from the back-up power requirement in WAC 480-123-030(1)(g) and WAC 480-123-070(6)*, Order Granting Extension of Temporary Partial Exemption From The Requirement Of Four Hours Of Back-Up Power At Each Cell Site Until December 31, 2015, Docket UT-101060, Order 04, September 24, 2014.

²² WAC 480-123-070(7).

H. Annual Plan for Universal Service Support Expenditures

The *Washington Certification Requirements* also require an ETC to report on the planned use of federal support, including the company's planned gross capital expenditures and operating expenses made with federal high-cost support received by the ETC for the coming year along with a description of major projects and affected exchanges, and a substantive plan of the investments and expenditures to be made with federal support and a substantive description of how those investments and expenditures will benefit customers.²³

T-Mobile's report on the use of federal high cost universal service support projected to be received in 2016 is included in its Service Improvement Plan for Washington included as Confidential Attachment H. T-Mobile's Service Improvement Plan identifies projected network improvements and upgrades to be funded with universal service support in 2016 and used to improve signal quality, coverage, and/or capacity. All cell site construction and site modification projects are designed to improve signal quality, coverage, and capacity, and switch upgrades are designed to improve service quality and capacity. The Service Improvement Plan further identifies other expenditures for the provision, maintenance, and upgrading of facilities used to deliver supported services to consumers consistent with 47 U.S.C. § 254(e).

The selection of the projects in the Service Improvement Plan is based on the Company's evaluation of many factors, including, but not limited to, current consumer demand, competitive forces, long term planning, available capital, and others. As these factors change, the Service Improvement Plan may be modified. In addition, forces beyond the Company's control (for example, zoning issues related to cell site placement) may result in modifications to planned projects or timelines. As a result, the content and timing of the projects in the Service Improvement Plan are subject to change. In addition, if the actual amount of federal high cost

²³ WAC 480-123-080.

universal service funding received varies from the amount currently estimated, T-Mobile reserves the right to modify its Service Improvement Plan accordingly.

The Washington Certification Requirements also require an ETC to submit, at least every three years, a copy of its then current coverage map in native ESRI format. In its Annual Report filed in 2014, T-Mobile submitted a copy of its coverage map for Washington in ESRI.shp format, consistent with WAC 480-123-080(3), and therefore T-Mobile is not submitting an electronic format of its coverage map with its 2015 report.

VI. ADDITIONAL T-MOBILE CONDITIONS OF ETC DESIGNATION

The Commission granted T-Mobile's request for ETC designation subject to two conditions. Condition 1(a) of the *Designating Order* requires T-Mobile to comply with all applicable federal and Washington state statutes and regulations, including E911 tax contributions. T-Mobile confirms its compliance with all applicable requirements.

Condition 1(b) of the *Designating Order*, related to Lifeline and Link Up support and eligibility, requires T-Mobile to identify the number of Lifeline customers and receipt of federal Lifeline and Link Up support. The Commission also requires T-Mobile to submit a copy of its Annual Verification Survey report made to the USAC regarding its Lifeline customers' continued eligibility for Lifeline, and based upon a review of that information, the Commission reserved the right to impose more rigorous customer eligibility verification requirements on T-Mobile.

A. Low Income Subscribership and Lifeline and Link Up Support

T-Mobile identifies in Confidential Attachment I the total number of Lifeline customers it served in Washington as of December 31, 2014 and the total amount of federal Lifeline and Link

Up support received in 2014 for its Washington study area, in compliance with condition 1(b) of the *Designating Order*.

B. Annual Verification Survey

T-Mobile previously provided the Commission with a copy of its Annual Verification Survey filed with USAC on or about January 31, 2015 for its Designated Area in Washington in compliance with condition 1(b) of the *Designating Order*.

VI. CONCLUSION

Based on the foregoing information, T-Mobile respectfully requests the Commission (i) approve its petition for annual certification and (ii) certify to the FCC and USAC that T-Mobile is eligible to receive federal universal service support in accordance with 47 § U.S.C. 254(e).

Dated this 1st day of July 2015.

Respectfully submitted,

T-Mobile West LLC

T-MOBILE UNIVERSAL SERVICE HIGH COST CERTIFICATION

I am Chris Miller, Vice President of Tax for T-Mobile USA, Inc., which is the parent company of and controls T-Mobile West LLC (hereinafter "T-Mobile") in this matter. I hereby submit this certification in support of T-Mobile's petition for certification as an Eligible Telecommunications Carrier ("Petition").

In my capacity as Vice President of Tax for T-Mobile, I have general knowledge of T-Mobile's operation as a commercial mobile radio services ("CMRS") provider in the State of Washington, and its qualifications and abilities to provide CMRS-based universal service consistent with this Petition. I certify that, to the best of my knowledge and belief, T-Mobile used all federal high-cost support in the preceding calendar year (2014) and will use all federal high-cost support in the coming calendar year (2016) only for the provision, maintenance, and upgrading of facilities and services for which the support is intended, consistent with 47 U.S.C. § 254(e) and 47 C.F.R. § 54.314.

I am authorized to make this certification on behalf of T-Mobile.

Signed,

Chris Miller

T-MOBILE UNIVERSAL SERVICE OTHER CERTIFICATIONS

I am Chris Miller, Vice President of Tax for T-Mobile USA, Inc., which is the parent company of and controls T-Mobile West LLC (hereinafter “T-Mobile”) in this matter. I hereby submit this certification in support of T-Mobile’s petition for certification as an Eligible Telecommunications Carrier (“Petition”).

In my capacity as Vice President of Tax for T-Mobile, I have general knowledge of T-Mobile’s operation as a commercial mobile radio services (“CMRS”) provider in the State of Washington, and its qualifications and abilities to provide CMRS-based universal service consistent with this Petition. I certify that, to the best of my knowledge and belief, T-Mobile:

1. Complies with applicable service quality and consumer protection standards, including CTIA-The Wireless Association’s ® Consumer Code for Wireless Service;
2. is able to function in emergency situations and is in compliance with Washington Administrative Code 480-123-030(1)(g), requiring that, when commercial power is not available, it has a reasonable amount of backup power (fixed, portable or other backup power source) for cell sites required to have backup power subject to the temporary exemption granted to T-Mobile by the Commission in Order No. 01 in Docket UT-101060; and

3. advertises the availability of its telephone assistance program in a manner reasonably designed to reach those likely to qualify for service, including to residents of federally recognized Indian reservations.

I am authorized to make this certification on behalf of T-Mobile.

Signed,

Chris Miller

Advertising and Outreach

Universal Service Advertising

T-Mobile advertised its universal service offerings throughout the calendar year 2014 via media of general distribution, including the use of media such as radio, television, billboards, print, internet, and targeted mailings, among other things. T-Mobile also maintains various retail stores and authorized dealer locations throughout its ETC designated service area through which it advertises its service offerings.

Lifeline Advertising and Outreach

T-Mobile advertised the availability of Lifeline services in 2014. Specifically, in 2014, T-Mobile:

- Posted information about its Lifeline offerings on www.usac.org
- Posted information about its Lifeline offerings on the Company's website, www.t-mobile.com, in both English and Spanish
- Advertised the availability of Lifeline through newspapers distributed throughout its designated ETC area, including the following (among others):
 - East County News
 - Pinch
 - Port Townsend & Jefferson County Leader
 - Sunnyside
 - The Miner
 - Walla Walla Valley Weekly
- Mailed more than 190 poster quality notices to social security and unemployment centers where low income consumers are likely to visit
- Sent out SMS text message to consumers who are likely to qualify for Lifeline services
- Information about T-Mobile's participation in the Lifeline program was printed on customer's October bill.

An example of the notices that T-Mobile made available to social service agency offices is included as Attachment 1. Attachment 2 includes an example and evidence of T-Mobile's more widely distributed advertising of its Lifeline offering. Attachment 3 is a sample of the SMS text message that was sent. Attachment 4 includes a sample of a customer's October bill.

Attachment 1

Lifeline Notice

Check to see if you qualify for discounted monthly wireless service.

Save money with Lifeline

T-Mobile® customers in Washington may be eligible to save at least \$10 per month on their wireless service when they qualify for the government's Lifeline program.

Qualifying for Lifeline

In Washington, customers may qualify for Lifeline assistance if they are currently eligible to receive benefits from any of the following assistance programs:

- Medicaid
- Supplemental Nutrition Assistance Program (SNAP) or Food Stamps
- Supplemental Security Income (SSI)
- Federal Public Housing Assistance (FPHA) including Section 8
- Low Income Home Energy Assistance Program (LIHEAP)
- National School Lunch Program's free lunch program (must qualify for free lunch)
- Temporary Assistance for Needy Families (TANF)

Additionally, residents of Washington might qualify for Lifeline if their total household income does not exceed 135% of the Federal Poverty Guidelines.

Customers who are also residents of federally recognized Tribal Lands may qualify for Lifeline under the assistance programs listed above or if they are currently eligible to receive benefits from any of the following assistance programs:

- Bureau of Indian Affairs General Assistance
- Tribally Administered Temporary Assistance for Needy Families (TTANF)
- Head Start (must satisfy income qualifying standard)
- Food Distribution Program on Indian Reservations (FDPIR)

Signing Up

If you think you might qualify, you must complete a Washington Lifeline application in order to receive Lifeline assistance. Customers with Internet access may visit www.t-mobile.com/lifeline to learn how to apply or to print an application.

If you do not have Internet access, you can request a printed copy of the Lifeline application from a T-Mobile retail store or by calling 1-800-937-8997.

Additional Information

For additional information about Lifeline and T-Mobile's Lifeline offering, visit www.t-mobile.com/lifeline.

You may find more information about Lifeline and other wireless services available from T-Mobile USA, Inc. at www.T-Mobile.com.

Important Information

Lifeline is a government assistance program that provides only eligible consumers with discounted service that is non-transferable and is available for only one line per household. A household is defined, for purposes of the Lifeline program, as any individual or group of individuals living at the same address that share income and expenses. Lifeline offers service only in areas where the company has Eligible Telecommunications Carrier status.

T-Mobile®

Basic Lifeline plan includes a monthly recurring rate for qualifying customers of \$6.49 per month which includes unlimited voice and pay-per-use text messaging.

Limited-time offer; subject to change. Taxes & fees additional; other fees may apply. Domestic only. Coverage: Not available in some areas. Nights and Weekends: Weekends are midnight Friday to midnight Sunday, and nights are 9:00 p.m. to 6:59 a.m. Monday-Friday, based upon start time of call. Time of call usually based on location of equipment transmitting call; if location is not available, time of call based on time zone associated with your phone number. Network Management: Service may be slowed, suspended, terminated or restricted from misuse, abnormal use, interference with our network or ability to provide quality service to other users, or significant roaming. See brochures and Terms and Conditions (including arbitration provision) at www.T-Mobile.com/terms-conditions for additional information regarding T-Mobile service and products, including important limitations on availability and reliability of 9-1-1 emergency service when using Wi-Fi Calling. ©2014 T-Mobile USA, Inc.

LOCAL NEWS

CASCADE NATURAL GAS

Natural gas rates could increase

East County News

Cascade Natural Gas Corporation customers could see a bump in costs next month.

The company has filed a Purchased Gas Adjustment (PGA), as well as two other filings, with the Washington Utilities & Transportation Commission to reflect the annual adjustment in the cost of natural gas, including an increase in pipeline capacity, the cost recovery of energy efficiency programs and the cost recovery of its pipeline replacement program.

The request translates to a more than 5 percent increase for Cascade customers in Washington.

Cascade serves approximately 260,000

residential, commercial, industrial and transportation customers in 96 communities in Washington and Oregon. Some 6,200 customers are serviced in the Aberdeen District (Aberdeen, Elma, Hoquiam, McCleary, Montesano and Shelton).

"The bulk of this increase request is because of an increase in pipeline capacity that is needed to meet demand, as well as the commodity cost of gas, which is up slightly over last year," said Scott Madison, executive vice president for Cascade.

A increase in use and a lack of product are two of the issues the increase would address, Madison said.

"Last winter was very

cold across the nation, which drew down reserves to their lowest levels since 2003," Madison said. "A lot of natural gas is going back into storage, which has created a slight increase in the demand."

The cost of gas is the largest segment of a customer's bill and is a straight pass-through cost to customers. Cascade does not make a return on the cost of gas.

The proposed increase is expected to go into effect Nov. 1, 2014, upon WUTC approval.

The total increase will be 6.2 percent, including:

- Cost and pipeline capacity with a 5.24 percent increase.
- Energy efficiency program cost recovery providing a .1 percent decrease.

crease. Pipeline replacement cost recovery with a .48 percent increase.

With the increase, a residential customer using 56 therms per month would see an increase of \$3.38 per month, or about \$40.56 in a 12-month period.

Commercial customers using an average of 271 therms per month would see an increase of \$16.21 per month or about \$194.52 in a 12-month period.

A PGA passes the costs of gas supplies to customers, and is common for a company to either under or over collect through the year as the market changes.

The actual purchase price usually differs from the projected price.

IN BRIEF

ELMA

Meet candidates Elma Chamber of Commerce is hosting "Meet the Candidates" luncheon at noon, Wednesday, Oct. 8, at the Guesthouse Inn & Suites conference center in Elma.

The luncheon will begin with candidates introducing themselves and sharing why they want to run for the office and their qualifications. Public may ask questions of candidates following all introductions.

Candidates expected to attend are those running for Grays Harbor County Commissioner, County Assessor, County Prosecutor and PUD Commissioner.

Lunch will be provided by Elma Chamber of Commerce with donations requested.

For more information email elmachamber@gmail.com or call (360) 482-3055.

MONTESANO

Child screening

Montesano School District offers free Child Developmental Screening for children ages birth to 6 whose parents have concerns for their child's development.

The screening will help identify potential problems that may affect the child's success in school and indicate further evaluation may be needed.

Screenings are offered to Montesano School District residents only an appointment is required. Call 249-2114 for more information or to schedule an

CONGRESS

Kilmer, Heck ask for hearing on Maritime Heritage Area

East County News

Congressmen Derek Kilmer and Denny Heck continued their pursuit of a National Maritime Heritage Area on the Pacific Coast of Washington recently by asking leaders of the House Committee on Natural Resources to consider their legislation.

In a letter to Chairman Doc Hastings and Ranking Member Peter DeFazio, Kilmer, a Gig Harbor Democrat, and Heck, a Democrat from Olympia, requested a hearing on the resolution, H.R. 5038, the Maritime Heritage Act.

"This proposal is based on broad support from the state and local communities, and would mark the first national heritage site on the West Coast and the only one in the country focused on maritime history," the members wrote in the letter sent Tuesday.

The Maritime Heritage Act would cover most of Western Washington's saltwater shoreline and would be the first National Heritage Area established in the Pacific Northwest. It would help promote maritime-related tourism, economic development and maritime history as told through state's museums, historic ships, fishing culture and other activities.

This Congress has designated 49 National Heritage Areas nationwide.

Heritage areas are eligible for federal grants, and can help draw contributions from state, local and private sources. They help coordinate marketing and tourism promotion, such as developing websites, putting up highway signs to advertise sites, sponsoring

festivals, and publishing brochures and tour maps. Heritage Areas also can help with assisting in the operation of museums and visitor centers.

A recent economic impact study indicates National Heritage Areas contribute \$12.9 billion annually to the national economy and support 148,000 jobs, according to the National Park Service. The legislation would create a heritage area that consists of lighthouses, historic vessels, parks, and other landmarks located within one-quarter mile of the shoreline in 13 counties, including Grays Harbor, Whatcom, Skagit, Snohomish, San Juan,

Island, King, Pierce, Thurston, Mason, Kitsap, Jefferson and Clallam counties. It also would include 19 Native American tribes, 32 cities and 30 port districts.

National Heritage Areas are partnerships between the National Park Service, states, and local communities through which the Park Service supports local and state efforts to preserve natural resources and promote tourism. They are operated by local boards that are established by legislation.

National Heritage areas are not part of the National Park System, which are lands that are

federally-owned and managed. No federal regulations are imposed, and no private land is affected or acquired. Kilmer and Heck introduced Senators Maria Cantwell and Patty Murray introduced companion legislation in the Senate.

Come see why everyone is smiling!

Need to know

Government taxes and fees includes sales, use, excise, public utility and E911 taxes and governmental charges and fees that we are required by law to bill and remit. These taxes and fees may change from time to time without notice.

T-Mobile fees and charges include (i) a Regulatory Programs Fee (which helps to recover some of our costs incurred complying with local, state and federal governmental mandates and programs, including, but not limited to, E911, local number portability and number pooling); (ii) state and federal universal service fund charges (to recovery charges imposed on us by the government to support universal service); (iii) other governmental assessments on us including, without limitation, gross receipt and excise taxes. These surcharges and fees are T-Mobile charges, not taxes. What is included in the surcharges and fees may vary by locale and are subject to change from time to time.

Late Fees may apply on unpaid balances. The fee is the greater of \$5 or 1.5% per month, or the greatest amount permitted by law. This fee is a liquidated damage and not a penalty.

Payment by Check. When you provide a check as payment, you authorize us to either use information from your check to make a one-time electronic fund transfer (EFT) from your account or to process the payment as a check transaction. If we process your payment by EFT, the funds may be withdrawn the

same day we receive your payment, and your canceled check will not be returned. If payment is returned unpaid, you authorize us to collect additional fees as outlined in the Terms and Conditions of Service at t-mobile.com/terms-conditions. Please contact (800) 937-8997 with any questions.

Equipment Protect by Asurion (in Puerto Rico: CAPIC) is for the equipment repair and replacement you may have selected. See Equipment Protection Terms and Conditions at t-mobile.com for details.

Please contact T-Mobile with any questions or disputes about your service or bill. You can reach T-Mobile by calling (800) 937-8997 or 611 from your T-Mobile device-TTY (877) 296-1018, by visiting our website at t-mobile.com, or by writing to T-Mobile Customer Relations, P.O. Box 37380, Albuquerque, NM 87176-7380. You can view your bill and usage details for free online by logging into your account at t-mobile.com. You can review your Terms and Conditions online at t-mobile.com/terms-conditions.

Throughout this bill, data is rounded up to the nearest KB each use, and, for billing, rounded up to the nearest MB at the end of each billing cycle. If you switch data plans mid-cycle, for billing, data will be rounded up to the nearest MB at time of the change, and charges may not be displayed separately for each plan. 1024 KB = 1 MB, 1024 MB = 1 GB.

T-Mobile participates in the government's Lifeline program

Access to affordable telephone service is important to all Americans. Lifeline offers eligible consumers savings on basic telephone service. You may qualify for Lifeline benefits if you live in a household not already receiving Lifeline benefits and if you participate in a qualifying public assistance program, such as Medicaid or Food Stamps, or meet certain income requirements. Learn more at www.t-mobile.com/lifeline.

EasyPay Terms and Conditions

EasyPay is an automatic payment feature. Once enrolled, the following EasyPay Terms and Conditions will apply and you authorize T-Mobile to withdraw from your bank account or charge your credit or debit card for the monthly charges associated with your account (including your recurring rate plan and feature charges, usage and add-on services, incidental purchases, and applicable taxes, fees and surcharges). Funds will be withdrawn or charged to your card 3 days before your account's due date. You may stop a withdrawal/charge or cancel the EasyPay feature by giving us at least 3 business days' notice before the scheduled date of withdrawal/charge. You have the right to receive notice of all varying transfers from your bank account. We are not liable for losses of any kind incurred as a result of an error in your account or delayed transfer or charge. You must promptly notify us of any changes to your EasyPay information, and our only liability is to make appropriate changes after we receive your updated information. Participation in EasyPay will remain in effect until cancelled by you, the credit card issuer, financial institution or T-Mobile, and all transactions authorized before cancellation will be completed. Check with your bank/card issuer for any charges or fees they may assess. T-Mobile may change these terms and conditions at any time by giving you notice by any means.
