Item 20 – Definitions, continued

Permanent service: Container and drop-box service provided at the customer's request for more than ninety days.

Rate: A price per unit or per service. A rate is multiplied times the number of units transported or the number of times a service is performed to determine a charge.

Solid waste receptacle: includes the following items, with the following meanings:

Automated cart means a cart designed to be picked up and emptied by mechanical means. The specific type and size are to be defined in rate items.

Can means a receptacle made of durable, corrosion-resistant, nonabsorbent material that is watertight, and has a close-fitting cover and two handles. A can holds more than twenty gallons, but not more than thirty-two gallons. A can may not weigh more than **(N) 65 pounds** when filled.

Cart means a wheeled plastic container. A cart may also be referred to as a toter. If supplied by a customer, a cart must be compatible with the company's equipment. The size and type of cart that is compatible will be established in each company's tariff.

Container means a detachable receptacle (normally designed to hold at least a cubic yard of solid waste) from which materials are collected by mechanically lifting the receptacle and emptying the contents into the company's vehicle.

Drop box means a detachable receptacle used to provide solid waste collection service by the receptacle being placed on the company's vehicle by mechanical means and transported to a disposal site.

Drum means a metal or plastic container of approximately fifty-gallon capacity, generally used for oils or solvents. A drum may not weigh more than ____ pounds when filled.

Litter receptacle means a container not over sixty-gallon capacity, generally placed in shopping centers and along streets or highways for litter. A litter receptacle may not weight more than ____ pounds when filled.

Item 20 – Definitions, continued

Micro-mini can means a can made of durable, corrosion-resistant, nonabsorbent material that is watertight and has a close-fitting cover. A micro-mini can may not hold more than ten gallons. A micro-mini can may not weight more than _____ pounds when filled.

Mini-can means a can made of durable, corrosion resistant, nonabsorbent material that is watertight and has a close-fitting cover. A mini-can may not hold more than twenty gallons. A mini-can may not weight more than (N) 35 pounds when filled.

Recycling bin or container means a bin or container designed or designated for the collection of recyclables. (N) Company issued recycling bins (3 in total; 1 each of red, white and blue) will be 14 gallon bins. Bins may weigh no more than 35 pounds when filled.

Toter means a wheeled plastic container. A toter may also be referred to as a cart. If supplied by customer, a toter must be compatible with the company's equipment. The size and type of toter that is compatible will be established in each company's tariff.

Unit means a receptacle made of durable, corrosion-resistant, nonabsorbent material, that is watertight, and has a close-fitting cover and two handles. A unit holds more than twenty gallons, but not more than thirty-two gallons or four cubic feet. A unit may not weigh more than _____ pounds when filled.

Where agreed on between the company and the customer, and where allowable under local ordinance, a box, carton, cardboard barrel or other suitable container may be substituted for a solid waste can, for a single pick-up that includes removal of the container, if it meets the size and weight limits established in the company's tariff.

Yardwaste bin or container means a bin or container specifically designed or designated for the collection of yardwaste. Each company's tariff will refer to a specific type of yardwaste bin or container to be used by customers in a service area. The type, size, weight, etc., of this type of bin or container will often be set by local government plans or ordinances.

Special pick-up: A pick-up requested by the customer at a time other than the regularly scheduled pick-up time, that requires the special dispatch of a truck. If a special dispatch is required, the company will assess time rates established in the company's tariff.

Company Name/Permit Number: Freedom 2000 LLC (G-63819)
Registered Trade Name: Cando Recycling and Disposal

Item 40 – Material Requiring Special Equipment, Precautions, or Disposal

Transportation of solid waste requiring special equipment or precautions in handling or disposal will be subject to time rates named in Item 160, or to other specific rates contained in this tariff.

Companies must make every effort to be aware of the commodities that require special handling at the disposal sites named in the company's tariffs. The company shall maintain a list of those commodities and make it available for public inspection at the company's office.

Item 45 – Material Requiring Special Testing and/or Analysis

When a solid waste collection company or disposal facility determines that testing and/or analysis of solid waste is required to determine whether dangerous or prohibited substances are present, the actual cost for such testing and/or analysis will be paid by the customer. The company must provide the customer with a copy of any bill or invoice for costs incurred for testing and/or analysis and also must retain a copy in the company's file for at least three years. Those costs shall be passed through to the customer without markup. The company must maintain records of time spent to accomplish the special testing and/or analysis, and may bill the customer for that time under the provisions of Item 160 (Time Rates).

Item 50 – Returned Check Charges

Returned check charge. If a customer pays with a check, and the customer's bank refuses to honor that check, the customer will be assessed a returned check charge in the amount of \$20.00.

(N) If a customer pays with a US funds check drawn on a Canadian bank and the customer's bank refuses to honor that check, the customer will be assessed an additional returned check charge in the amount of \$15.00.

Item 100 – Residential Service – Monthly Rates (continued)

Curbside recycling provisions shown on this page apply only in the following service area:

Following is a description of the recycling program (type of containers, frequency, etc.). Program provided in accordance with Ordinance Nos. 90-95; 95-045; 097-067 and 2001-041 (as codified on Chapter 8.10 of the Whatcom County Code) of Whatcom County Washington

(C) Mandatory 3-Bin recycling system with every other week collection for single family residences.

Curbside recycling is available to seasonal vacation or weekend homes.

Materials collected are newspaper, mixed paper, cardboard, plastic bottles, glass containers, aluminum cans and tin cans.

The Hauler will provide bins which remain the property of the Hauler. Customers will be charged a replacement fee of \$10.00 per bin for lost or damaged bins.

Special rules related to recycling program:

Specific to Point Roberts and the Whatcom County Code Chapter 8.10, curbside recycling in Point Roberts does not have to be on the same pick-up day as scheduled garbage pick-up. The Hauler will provide a regular schedule to all customers.

According to Whatcom County Code Chapter 8.10, all residential customers must pay for curbside recycling services. However in Point Roberts, seasonal weekend and vacation homes are specifically excluded. While these residences are excluded by code; the option of participating in curbside recycling services is available and if that option is exercised then the rates will be the as outlined on page 25.

(N) Rule 1. Cardboard needs to be flattened; cans must be rinsed and labels removed; plastic bottles must not have contained motor oil or hazardous chemicals

(N) Rule 2. If a recycling bin contains more than 5% contamination the item will not be picked up. The customer will then be given the option of removing the contamination or having the item picked up as garbage on the customers' following day of curbside collection.
