December 1, 2018

Dear Valued Customer:

SSC appreciates the opportunity to provide you with recycling collection service. This notice is to inform you of a proposed **recycling commodity rate increase**, subject to the review and approval of the Washington Utilities and Transportation Commission (UTC). If this request is approved by the UTC, the actual rates may either be higher or lower than those proposed. New rates would become effective January 1, 2019.

Notice of Change in Recycling Commodity Rate

	OLD RATE	Proposed Increase	NEW RATE
Residential	\$0.89/mo.	\$1.10/mo.	\$1.99/mo.
Multi-Family	\$0.31/yd/pick-up	\$0.23/yd/pick-up	\$0.54/yd/pick-up

This proposed rate change is being requested due to new quality standards for recyclables that have impacted recycling programs nationwide. New international quality standards for recyclables have resulted in fewer markets for processed material and increased costs at third-party processing facilities as they attempt to meet stricter contamination and quality control standards.

The recycling service collection rate SSC charges and receives from customers **is not affected** by this rate increase notice. This proposed rate increase is for the recycling commodity rate portion only.

To comment on this proposed rate increase:

Comments on this filing may be submitted online at www.utc.wa.gov, email comments@utc.wa.gov, call toll free at 1-888-333-9882 or write the commission at P.O. Box 47250, Olympia, WA, 98504-7250. A UTC consumer guide to garbage and recycling service is also available at: www.utc.wa.gov/consumers/Documents/Garbage%20Guide.pdf.

It is our goal to provide customers with dependable, quality collection services at the lowest possible costs. We work hard to keep rates low, but these increased recycling processing costs have made it necessary for us to request a rate adjustment.

For questions or more information, please contact us at (360) 734-3490 or ssc@ssc-inc.com. Or visit our website at ssc-inc.com. Thank you for the opportunity to serve you.

Sincerely,

Amber Jones

Amber Jones, Chief Financial Officer

Understanding Your Bill - Recycling Commodity Price Tracker

SSC provides you with garbage and recycling collection service. You pay us to collect these materials. Recyclables are sold and the value we receive (if any) from the sale of these materials is applied to your collection bill in the form of a commodity credit or commodity debit.

The commodity credit or debit that appears on your bill reflects market conditions of the past six months. Market prices for recyclables go up and down just like prices for other commodities, such as lumber and gasoline. Following a period of high (or positive) market values, your commodity credit will increase. Following a period of low (or negative) market values, your commodity credit will decrease and may become a debit. The sale of these recyclables helps lower your overall bill.

Fortunately, here in Whatcom County, the impact of these new international quality standards has been less severe than in other communities thanks to the great job our customers do in preparing their recyclables. Clean, sorted, high quality recyclables, from programs like ours, consistently get the highest prices at market.

During times when we pay to have your recyclables processed, please remember it is still less expensive than disposing of these materials as garbage. We will continue to work with our vendors to secure the highest prices for your empty, clean, dry and sorted recyclables.

We encourage you to continue recycling!

For more information please visit our website at ssc-inc.com or the FAQ page at ssc-inc.com/faqs - Recycling Commodity Tracker. Connect with us on social media at facebook.com/sscinc and twitter.com/sscinctweets.

Preparing Your Recyclables - Reminders

Aluminum Cans/Tin Cans/Foil—Remove tin can labels (recycle with Mixed Paper). FLATTEN all aluminum cans/tin cans/foil.

Glass Bottles/Jars—All colors/labels/lids OK. Avoid breaking glass. Rinse.

Remove metal lids and bottles from 6-pak/case boxes, etc. and place loose in container.

No window glass, windshields, Pyrex, light bulbs, mirrors or ceramics.

Plastic Containers—Bottles/Jugs/Caps/Cups/Lids/Jars/Tubs/Pails/Buckets

(max. bucket size - 3 gal. Remove metal handles.) All colors/numbers/labels OK.

Rinse and nest together if possible. Please FLATTEN all bottles and put plastic caps/lids back on.

No plastic pumps, Styrofoam™, packaging, tableware/utensils, pipe, foam rubber, insulation or plastic containers that held potentially hazardous products such as motor oil, antifreeze, solvents, pesticides, etc.

Newspaper—Clean newsprint/inserts/ads. If windy, put top layer of newspaper in a *paper bag*. *No plastic bags.*

Scrap Paper—Old mail/magazines/catalogs/stationery/envelopes/computer/copy/notebook paper/paper labels/cartons/bags/shoe boxes/cereal boxes (remove liners. Flatten or fill with mixed paper to save space). Place paper (or top layer of papers) in a *paper bag* if possible. Lay bag **on side** in bin to prevent windblown litter. Bag shredded paper and tape shut. *No plastics, foil, carbon paper or multi-layered products (ie. aseptic, frozen orange juice cans, Pringles™ cans, etc.). No paper plates, napkins, towels, tissue, wax or plastic-coated boxes or papers (i.e. milk/juice/frozen food containers)*. *These items are accepted in our **FoodPlus!** program. To sign up contact us.*

Cardboard—Corrugated cardboard and brown paper bags. Remove packing materials. Flatten ALL boxes. Do not stuff cardboard into boxes or bins. Leave flat on ground or bundle. Max. stack size 2'Wx4'Lx6"H per pick-up. If windy, bundle or tape. For pick-up of larger stacks, contact us. *No Styrofoam®, plastic packing or wax-coated boxes (ie. fruit boxes).*
