In January and February, 2022, the Washington Utilities and Transportation Commission (UTC) awarded seven GCPF grants totalling \$96,348 to CWW LLC to replace crossing signal batteries and battery chargers at seven grade crossings on its line in the Walla Walla area.

On July 21, 2022, CWW LLC notified UTC staff that the work had been completed, and on August 16, 2022, submitted requests for reimbursement. UTC staff inspected each crossing and verified that the projects were completed according to the specifications outlined in the order approving the grant.

Please close each of these dockets.
