**Re: Docket UE-210816 (Advice No. 2021-38)
PSE’s Electric Tariff Filing – Do Not Redocket**

Dear Ms. Maxwell:

Puget Sound Energy (“PSE”) hereby submits in connection with Docket UE-210816 the revised work papers to replace the ones that accompanies PSE’s initial October 29, 2021 filing submitted under PSE’s Advice No. 2021-38.

The two work papers are PSE’s Schedule 91 pricing models: Model A-Standard Schedule 91 Rates for Delivery to PSE’s Distribution System and Model B-Standard Schedule 91 Rates for Delivery to PSE’s Transmission System. The two models apply standard adjustments to the costs of in the proposed Schedule 91 Schedules of Estimated Avoided Costs to determine the standard rates that PSE will pay for power purchased from a qualifying facility of five megawatts or less. At the request of UTC staff, PSE added, within each model, a read-me tab that provides descriptions of the model input and a summary tab that shows the comparison of the results from the current Schedule 91 filing and the prior approved Schedule 91 filing. There are no formula or assumption changes to the models and there are no changes to the standard fixed rates proposed in the initial filing.

Posting of this substitute filing for public inspection and review, as required by law and the Commission’s rules and regulations, is being completed in accordance with WAC 480-100-193(1).

Please contact Mei Cass at (425) 462-3800 for additional information about this filing. If you have any other questions please contact me at (425) 456-2142.

Ms. Amanda Maxwell
