Hello,

Who would I need to talk to about this judgment against my company?

I would like to appeal this decision made by the UTC

As stated in my letter, your staff member has come out to our facility multiple times and said that we are in full compliance of the UTC and unfortunately only had 1 very small correctable mistake.

I don't see how this can be a major violation again when we did in fact have timecards in place which shows my drivers total driving time for the day/week and our bill of lading also shows my drivers daily driving reports (Start/Stop times)

I am sure she can write a letter of recommendation for my company since she has been there in person to conduct the investigation in person and said that we are doing a great job.

Please reconsider this judgement since this penalty/fine will greatly affect my already struggling small business
