Re: UE-230886 – Avista Utilities Tariff WN U-28, Schedule 90, Electric Energy Efficiency Programs

Dear Ms. Hunter:

On November 1, 2023, Avista Corporation, dba Avista Utilities (Avista or the Company), submitted to the Washington Utilities and Transportation Commission (Commission) its proposed modifications to its electric tariff Schedule 90, with a substitute filing then made on December 13, 2023 to extend the effective date of the requested revisions to allow Commission Staff more time to review the tariff filing and a 2nd substitute filing on December 29, 2023 to incorporate clarifying language as requested by Staff. In its first substitute filing (December 13th), the Company erroneously provided an effective date of January 11, 2024, while the actual date requested should be January 12, 2024. Avista hereby corrects the effective date in the attached tariff sheets.

If you have any questions regarding this information, please contact me at (509) 495-7839.

Sincerely,

/s/ Jaime Majure
