Re: In the Matter of Review of Unbundled Loop and Switching Rates and  
Review of the Deaveraged Zone Rate Structure  
Docket No. UT-023003

TO THE PARTIES:

On October 21, 2004, the Commission requested Verizon to provide copies of the ten CDs that comprise Exhibit No. 225 in this proceeding to the Commission and the parties. Verizon has provided those CDs. However, upon review, it appears that CDs Nos. 5 and 8 of that series are essentially blank.

Verizon is requested to review the CDs and determine what was intended to appear on CDs Nos. 5 and 8. Verizon is further requested to provide the information that was supposed to be on those disks to the Commission and the parties, or to indicate that the disks were intended to be blank.

Verizon is requested to provide the information by Thursday, November 4, 2004.

Sincerely,

THEODORA M. MACE  
Administrative Law Judge
