OPUC Data Request 403

Please provide the following information for the Desert Power, Kennecott, Tesorro, and US Magnesium qualifying facilities contracts: situs state, contract effective and termination data, capacity provided, and ancillary services provided. Please describe in detail how and where the costs associated with these contracts are treated and allocated in the company's filing.

Response to OPUC Data Request 403

Information related to the noted qualifying facilities can be found in the contracts included as Attachment OPUC 403 on the enclosed CD.

The costs associated with each of the facilities are calculated based on contract specifications and are presented on the Company's filed Net Power Cost report (Tab 5.1 of Exhibit 801).

The costs associated with these four qualifying facilities are found on page 5.1.4 (Exhibit 801):

Desert Power	32,892,882
Kennecott	8,637,165
Tesorro	2,552,497
US Magnesium	<u>14,601,840</u>
Total	<u>58,684,384</u>

This total of \$58,684,384 flows through to page 5.1 and is part of the line titled "Purchased Power", allocated to account 555 SG.
