Olympia, WA 98504-7250

**Re: Docket UE-152058
First Quarter ACP Exhibit 4 Updates**

Dear Mr. King,

Attached are Puget Sound Energy's ("PSE's" or "the Company's") first quarter updates of its 2017 Exhibit 4: Energy Efficiency List of Measures, Incentives and Eligibility, originally filed as the eighteenth version in PSE's 2017 Annual Conservation Plan ("ACP") in Docket UE-152058 on November 14, 2016.

This nineteenth version is consistent with condition (5) in Appendix A of Order 01 in Docket No. UE-152058, which indicates that program detail revisions must be filed as updates to the ACP with the Commission. In compliance with WAC 480-109-110(3), PSE provided its Conservation Resource Advisory Group ("CRAG") with an advance, "mark-up" copy of Exhibit 4 and a summary of key updates on April 18, 2017. The footnotes of Exhibit 4 reflect the updated version number and filing date.

In addition to formatting, grammar, and spelling improvements in Exhibit 4, PSE clarified its measure offerings in several programs, added new measures, and updated its measure incentive and eligibility requirements, aligned measure categories more closely with their corresponding end-use type, and provided details about renewable energy incentives. All program revisions are consistent with PSE's adaptive Total Quality Management principles.

Mr. Steven V. King, Executive Director and Secretary
