PUGET SOUND ENERGY
Electric Tariff G

SCHEDULE 141C
COLSTRIP ADJUSTMENT RIDER

(N)

APPLICABILITY: This Colstrip Adjustment Rider rate shall be applicable to the electric energy delivered to Customers under any schedule contained in this tariff except those Customers served on Schedule Nos. 448, 449, 458, and 459. This Colstrip Adjustment Rider rate shall be applicable to the electric energy delivered to Customers under any special contract unless specifically excluded by such special contract or Commission Order.

PURPOSE: This schedule implements surcharges and/or credits to collect or pass back the costs incurred or benefits realized associated with Colstrip Power Plant Units 1 & 2 and 3 & 4 as authorized in UE-22____. Beginning in 2026, only decommissioning and remediation related costs will be included in this Schedule in compliance with the Clean Energy Transformation Act.

COST RECOVERY PROCEDURE(S):

- a. This tariff is set to recover costs associated with Colstrip Units 1 & 2 and 3 & 4 as outlined in the Purpose section, but excluding variable power costs as detailed in UE-22____. The costs outlined in the Purpose section will be recovered through an energy component rate, or a per unit component rate, in this Schedule. For billing purposes the Schedule 141C rates will be included with the general rate billing.
- b. Over the full time period this tariff schedule is in effect, it will serve to collect the total amount of prudently incurred Colstrip costs that are not funded by other sources using an annual true-up described in the True-Up section, to address variances during the remediation period as defined in item d. of this subsection.
- c. The Company will submit annual filings on or prior to October 31 for rates effective January 1 of the following year. Each annual filing will be for rates to be effective from January 1 through December 31. The rates will be based on operating costs and rate base items either on a forecast or historical basis as allowed in UE-22____.

SCHEDULE 141C (N)
COLSTRIP ADJUSTMENT RIDER (Continued)

COST RECOVERY PROCEDURE: (Continued)

- d. This rate schedule will continue until all remediation activities required by state or federal law have been completed, including but not limited to, those required by Montana Department of Environmental Quality and/or US Environmental Protection Agency ("the remediation period") and the cost of which have been recovered. This rate schedule is designed to recover the prudently incurred expenditures in excess of other funding sources such as U. S. Treasury Grants and Production Tax Credits ("PTCs"). At the end of the remediation period, the rate will reset to either collect or refund amounts necessary to achieve this recovery until the residual balance is below plus or minus \$100,000, at which point the remaining balance will be transferred to an appropriate existing schedule, the proposal for final disposition of which will be included in that year's annual filing.

TRUE-UP: Each year, the Company estimates the amount of costs to be included in the Colstrip Adjustment Rider rates as well as provides for a true-up of amounts from the prior rate period.

Amounts to include in each year's true-up are:

- a. A true-up equal to the actual operating expenses and return on rate base paid or incurred during the rate period minus the amounts set in rates for that rate period;
- b. A true-up will be included for the difference between what was expected to be collected when rates were set the previous year versus the amount actually collected that is due to variances in load; and
- c. As part of the annual filing, the Company will provide reports of the actual amounts for operating expenses and rate base items that are included in the true-up calculation for a prudence review. The reports will also present future cost estimates, the change from prior year's estimates for the expected remaining decommissioning and remediation, the resulting rate impact and a detail of the utilization of U.S. Treasury Grants or PTCs.

**PUGET SOUND ENERGY
Electric Tariff G**

**SCHEDULE 142
REVENUE DECOUPLING ADJUSTMENT MECHANISM**

1. **APPLICABILITY:** This rate schedule is applicable to all Customers of the Company that receive service under Schedules 7, 7A, 7D1, 7D2, 8, 10, 11, 12, 24, 25, 26, 29, 31, 35, 43, and Special Contracts. Rates in this schedule will be applied to all bills of applicable Customers with Energy usage during a month when this schedule is effective. (N) (D) (D)
2. **PURPOSE:** The purpose of this schedule is to establish balancing accounts and implement a rate adjustment mechanism that decouples the Company's revenues recovered from applicable Customers that are intended to recover delivery and production costs from sales of electricity.
3. **DEFINITION OF RATE GROUPS:** (N)
 - a. Rate Group 1: Customers served under Schedules 7, 7D1, and 7D2.
 - b. Rate Group 2: Customers served under Schedules 8 and 24.
 - c. Rate Group 3: Customers served under Schedules 7A, 11, 25, 29, 35 and 43.
 - d. Rate Group 4: Customers served under Special Contracts.
 - e. Rate Group 5: Customers served under Schedules 12 and 26.
 - f. Rate Group 6: Customers served under Schedules 10 and 31.
4. **DECOUPLING MECHANISM:**
 1. Delivery Revenue Decoupling Calculation:
 - a. The Delivery Revenue Decoupling Adjustment reconciles on a monthly basis, separately for Rate Groups 1, 2, 3 and 4, differences between (i) the monthly Actual Delivery Revenue resulting from applying the following Delivery Revenue Per Unit Rates to their Energy sales, and (ii) the Allowed Delivery Revenue that would be collected by applying the Monthly Allowed Delivery Revenue Per Customer (see 4.1.d. below) by the active number of Customers in each group for each month.

Delivery Revenue Per Unit (\$/kWh)	Effective	Effective	Effective	(N) (N) (N)
	January 1, 2023- December 31, 2023	January 1, 2024- December 31, 2024	January 1, 2025- December 31, 2025	(T)

SCHEDULE 142 (N)
REVENUE DECOUPLING ADJUSTMENT MECHANISM (Continued) (N)

4. **DECOUPLING MECHANISM (Continued):** (T)
1. Delivery Revenue Decoupling Calculation (Continued): (T)
- e. Process (Continued): (T)
- ii. No later than April 1 of each year following the initial effective date of this schedule, the Company will make a filing to set new delivery decoupling rates under this Schedule 142 to be effective May 1 of the same year. (M)
2. Fixed Power Cost Revenue Decoupling Calculation: (M)
- a. The Fixed Power Cost Revenue Decoupling Adjustment reconciles on a monthly basis, separately for Rate Groups 1, 2, 3, 5 and 6, differences between (i) the monthly Actual Fixed Power Cost Revenue resulting from applying the following Fixed Power Cost Revenue Per Unit Rates to their Energy sales, and (ii) the Monthly Allowed Fixed Power Cost Revenue (see 4.2.c. below). (M)

	Effective January 1, 2023- December 31, 2023	Effective January 1, 2024- December 31, 2024	Effective January 1, 2025- December 31,	(N)	(N)	(N)
Fixed Power Cost Revenue Per Unit (\$/kWh)				(M)		
Rate Group 1	\$0.022052	\$0.021629	\$0.021399		(R)	
Rate Group 2	\$0.019168	\$0.018758	\$0.018668			
Rate Group 3	\$0.018477	\$0.018075	\$0.017977			
Rate Group 4	N/A	N/A	N/A			
Rate Group 5	\$0.017520	\$0.017143	\$0.016995			
Rate Group 6	\$0.016820	\$0.016618	\$0.016651	(M)	(R)	(N) (N)

- b. The difference resulting when the Actual Fixed Power Cost Revenue is subtracted from the Allowed Fixed Power Cost Revenue is accrued monthly in the Fixed Power Cost Revenue Decoupling Adjustment Balancing Account. The monthly amount accrued will be divided into sub-accounts so that net accruals for each Rate Group can be tracked separately. The sub-accounts will accrue interest at a rate equal to that determined by the Federal Energy Regulatory Commission pursuant to 18 CFR 35.19a. (M)
