

Docket No. UT-991737

To Whom it May Concern:

I apologize for not totally understanding all the technicalities of the paperwork I have been receiving from you. I do appreciate it and care what is going on.

The issue I would like to address to you concerns the carrier of service that will be chosen for the Resort. We phone the Spokane area, not Idaho. It is desirable to us to have a carrier that keeps calls to Spokane as local, not long-distance. I would be quite interested in telephone service out there.

I have an ailing Mother that stays at my current residence in Spokane while we spend as much time as we can at the Resort. This is difficult as there is no way to contact each other if there should be a problem for her. Being able to contact her by phone would allow us to keep in touch with her anytime and allow us to spend more time at the Resort.

One day we hope to be able to be permanent residents at the Resort. However, without phone service for things like emergency help, that would be unwise.

My husband and I hope you can select a carrier that will meet our needs and budgets.

Thank you for your efforts!

Sincerely,

Lori & John Hendon
