PSE Dockets UE- 1211697/UG-121705(Decoupling): UE-130137/UG-130138(ERF)

Dear Mr. King:

The Energy Project is especially interested in all issues regarding low income rate assistance and conservation in the following PSE's dockets UE-130137/UG-130138 and the decoupling docket UE-121169/UG-121705. We have informally heard that proposals regarding low income rate assistance and conservation may be suggested in testimony or in other discussions regarding both of the above mentioned dockets. Therefore we would request that The Energy Project be provided all proposals including those offered in settlement and be informed of any meetings, technical/ settlement conferences discussions and especially those that include adjustments to low income programs offered by any party, staff or PSE in the above dockets.

Ronald L. Roseman
Attorney for The Energy Project.
