In the Company's comments submitted on October 6, 2014 in Docket No. 131723, Avista Utilities on page 8, recommended some language changes to avoid "double-counting" the energy value of eligible renewable resources. After discussions with Commission Staff, Avista believes that the Commission Staff-proposed language is correct and no further changes are necessary. The Company requests that this email be included in the above referenced Docket's Record.

Please contact me if you have any questions,

Sincerely,

Linda Gervais
