Re: Request for waiver of WAC 480-60-050

Dear Mr. Nizam:

We are planning to build a three tank loadout structure at our Ellensburg plant next to the railroad spur. We have limited space for this structure, as you will notice on the attached drawing. We will only have 6'4 1/2" from the center line of the spur instead of the 8'6" requirement required by the WUTC.

We respectfully request that a waiver be granted so we can proceed with construction.

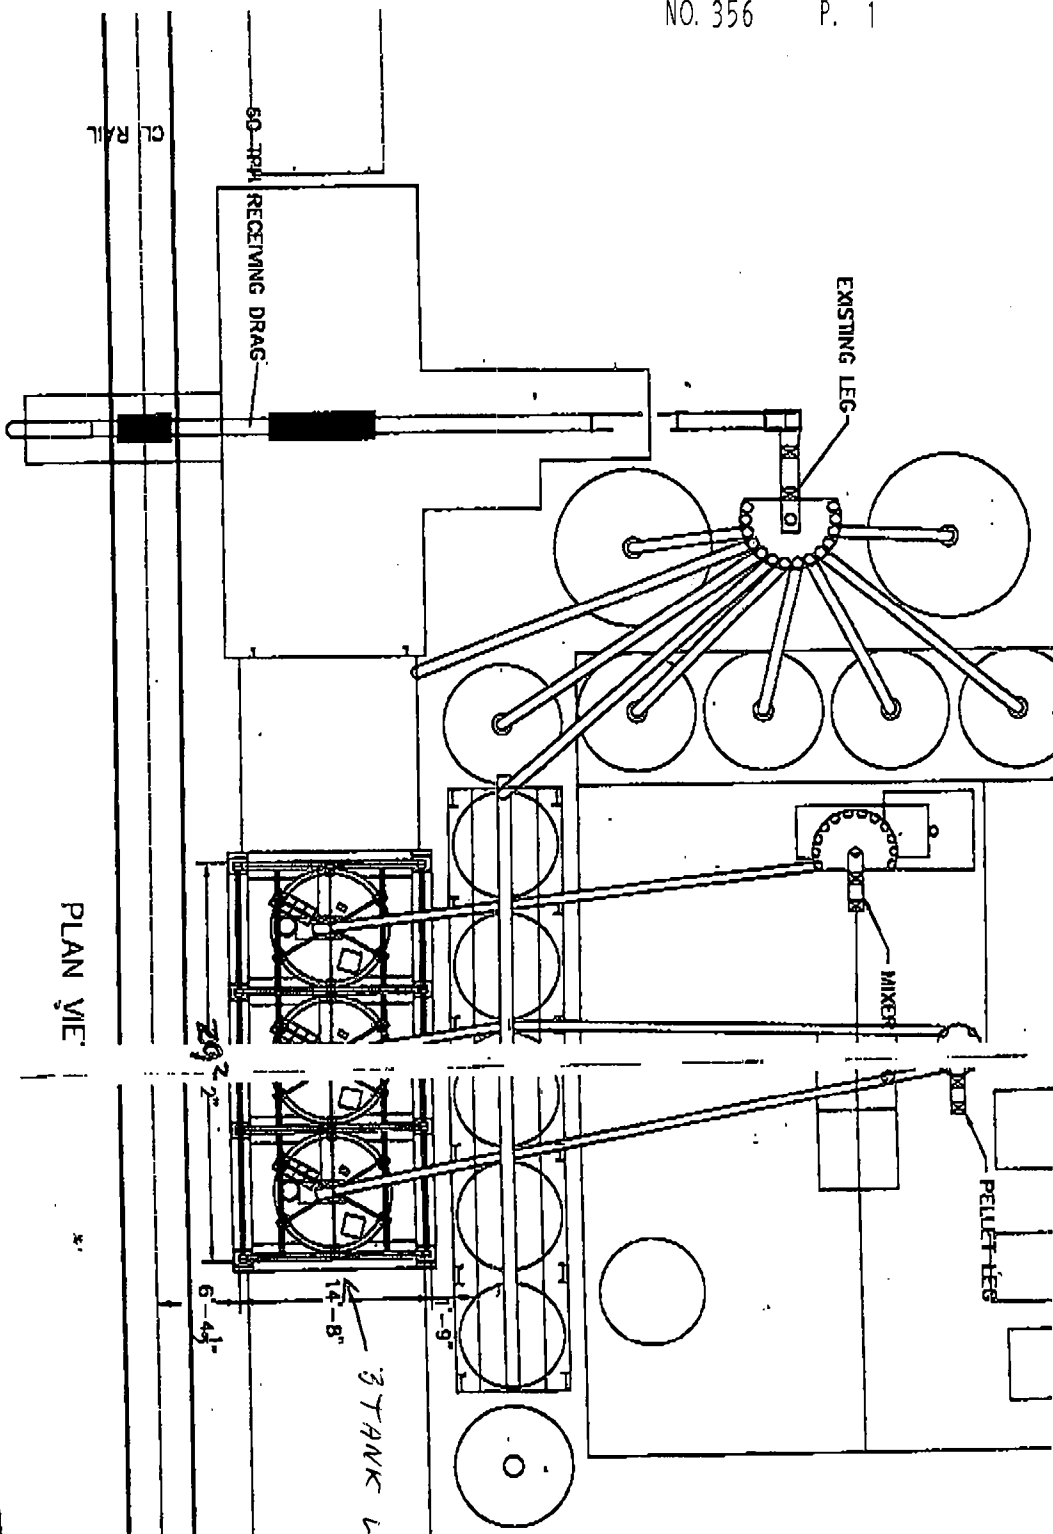

Thank you for your assistance in this matter.

Sincerely,

Robert G. Adkisson
Operations Manager
