**Railroad Commitment
TR-060280**

The undersigned represents the Railroad Company in the GCPF application described as (enter a brief description):

Installation of a locking steel pole gate located on SR-14 in the Columbia River Gorge near highway milepost 51. Installation of the pole gate will keep the public out of the area and reduce the incidents of trespassing onto BNSF property.

We have reviewed the application and are satisfied the conditions are the same as described by the applicant in this matter. We agree to allow construction, modification or demolition on a railroad right-of-way as described in the application.
