Notice and Listing of Tariffs

**NOTICE
PACIFIC POWER**

Pursuant to Washington Law (including without limitation RCW 80.28.050 and -060) and the Washington Utilities and Transportation Commission's (the "Commission") Rules & Regulations, Pacific Power has filed with the Commission the original tariff schedules for electric service in the State of Washington.

Overview

Pacific Power's (the "Company") current avoided cost prices became effective in February 2009. Since that time resource requirements, natural gas and market prices have changed as have the Company's avoided costs. This filing is being made to bring the Commission approved avoided cost prices in line with the costs that the Company would expect to pay but for the QF resource.

The Commission will examine the Company's proposed tariff sheets. As a result of such examination, the Commission may determine that any or all of said schedules should be accepted as filed, modified or rejected.

Unless suspended by the Commission, these tariff sheets will become effective February 26, 2010.

DATED: February 10, 2010
