RE: Commodity Credit Adjustment for Murrey's Disposal Co., Inc. G-9.

Dear Mr. Gomez:

As a follow-up to our conversation on October 13th, the Company believes to have supplied the required documentation to the WUTC regarding commodity revenue sharing for the prior year.

In coordination with Pierce County, Murrey's Disposal prepared a recycling plan in 2005 regarding services the Company provides to both recycling customers and to Pierce County. The Company has complied with the revenue sharing conditions detailed in the approved plan.

Pierce County notified the WUTC on September 16th, 2010 that the Company has complied with these conditions and is entitled to retain thirty percent of the commodity revenue generated.

Please notify me if you require further information on this matter.

Sincerely,

Dan Schooler
Vice President,
Northern Washington Division
