**CPF 5-2012-6003M
Closure Letter**

Dear Mr. Harden:

From August 22 to 26, 2011, representatives of the Washington Utilities and Transportation Commission (WUTC), pursuant to Chapter 601 of 49 United States Code, inspected your crude oil pipeline facilities in the State of Washington. As a result of the inspection, Kinder Morgan Canada, Inc. was issued a Notice of Amendment on February 28, 2012, which proposed amendment of your procedures.

Kinder Morgan Canada, Inc. submitted its amended procedures on June 1, 2012. The WUTC and my staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
