Kathy,

As requested, here is an e-mail from Washing & Idaho Railway stating that they have no objection to moving the crossing. I will forward the e-mail from WSDOT after I send this one.

Bowie,

The Washington & Idaho Railway agrees with the movement of the pedestrian crossings at Spangle.

Frank,

Here's the reminder you asked me to send you on the response to UTC. UTC just needs something in writing from you (the operator) saying its ok to move the crossing away from the edge of the road as shown. Thanks again for your help.

Bo
