

IMPORTANT NOTICE FOR PUGET SOUND ENERGY CUSTOMERS ABOUT PROPOSED CHANGES IN RATES

Puget Sound Energy on Oct. 31, 2016, and on Nov. 29, 2016, filed requests with the state Utilities and Transportation Commission (UTC) to adjust electric and natural gas rates. The requested changes, proposed to be effective on Jan. 1, 2017, are included in the Other Charges & Credits amount(s) listed on PSE bills:

- **Federal Wind Power Credit:** An annual true-up of the pass-through of federal income tax benefits derived from PSE's investments in the utility-owned and operated Wild Horse and Lower Snake River wind facilities. The filing requests to decrease the credit, which will increase electric rates for most customers.
- **Renewable Energy Credit:** Due to a reduction in the level of Renewable Energy Credit sales, PSE requests to set the credit to zero which will result in an increase in electric rates.
- **Merger Credit:** The Merger Credit, established in February 2009, will be decreased, causing an increase in electric and natural gas rates for most customers.

NATURAL GAS RATES: There will be no change for households with natural gas service using a 12-month average of 68 therms per month.

ELECTRIC RATES: The combined effect of all three rate changes for the typical residential customer using 1,000 kWh of electricity per month will increase a typical PSE monthly bill by 34 cents, or 0.33 percent in the monthly bill.

The overall average changes for electric and natural gas customers are as follows:
