Thanks for the update Mike.

For TR-210281 SR-125, I am showing my batteries not showing up till the end of October. Can I ask for another extension, perhaps to the end of November?

Hi Jared,

Here's an update on your GCPF projects:

- TR-210228 SR-124 batteries and charger: sent to financial services today for reimbursement
- TR-210281 SR-125 batteries and charger: waiting to hear from you that the project is completed. Project close date is 9/30/2021.
- TR-210226 Prospect Ave batteries and charger, and TR-210596 private crossing warning signs: Review team is looking at these (and several others) next week to make recommendation to Commission. Should have news next week.
