Docket No. UG-220373

Dear Ms. Maxwell:

Attached for electronic filing with the Commission is Avista Corporation's, dba Avista Utilities (Avista or the Company), proposed substitute revisions to the following natural gas tariff sheet, WN U-29:

Sub. Twenty-Fourth Revision Sheet 191 Canceling Sub. Twenty-Third Revision Sheet 191

Avista submitted its tariff revision to its Schedule 191 "Demand Side Management" tariff on May 27, 2022 with a requested effective date of August 1, 2022. Recently, the Company's third party payment vendor has experienced issues which may limit its ability to mail the customer notice, via bill insert, to all customers that will be impacted by this filing prior to the requested August 1 effective date. In order to allow enough time to properly notice all customers, the Company respectfully requests to extend the effective date of this tariff filing to October 1, 2022. The Company plans to issue a revised customer notice during the August billing month in coordination with both the Schedules 92/192 (Low Income Rate Assistance Program) and Schedules 75/175 (Decoupling) tariff filings reflecting the proposed October 1, 2022 effective date.
